Bitten. Elena Michaels is the world's only female werewolf. And she's tired of it. Tired of a life spent hiding and protecting, a life where her most important job is hunting down rogue werewolves.

She is the author of the bestselling, thirteen-book Women of the Otherworld series, which begins with Bitten and concludes with Thrown into a desperate war for survival that tests her allegiance to a secret clan of werewolves, Elena must reconcile with who, and what, she is in this passionate, page-turning novel that begins the Women of the Otherworld series. He plans to harness their powers for himself-even if it means killing them. Now that she is twenty-three and her mother is dead, the Elders can no longer deny her. Now her goal is to start a new Coven for a new generation. But while Paige pitches her vision to uptight thirty-something witches in business suits, a more urgent matter commands her attention. An evil spirit called the Nix has escaped from hell. She feeds on chaos and death, and is very good at persuading people to kill for her. The Fates want Eve to hunt her down before she does any more damage, but the Nix is a dangerous enemy â€” previous hunters have been driven insane in the process. But thankfully, her expertise is needed to retrieve a stolen letter allegedly written by Jack the Ripper. For celebrity medium Jaime Vegas, it is to be her swan songâ€”one last publicity blast for a celebrity on the wrong side of forty. But unlike her colleagues, who are more show than substance, Jaime is the real thing. Reluctant to upstage her fellow spiritualists, Jaime tries to suppress her talents, as she has done her entire life. But there is something lurking in the maze of gardens behind the house: When events culminate in a psychic showdown, Jaime must use the darkest power she has to defeat a shocking enemyâ€”one whose malicious force comes from the last realm she expected. But in addition to possessing the beauty of a Bollywood princess, Hope has other unique traits. For she is a half demonâ€”a human fathered by a demon. But when her client is gunned down in the back room of a nightclub, Robyn is suddenly on the run as the prime suspect in the murder. But now their bond will be put to the ultimate test. Until the bloody ghosts show up. But when three young women are found dead â€” victims of what appear to be ritual murders â€” things start to get very dark and dangerous. As the daughter of a black witch, she has a lot of power running through her veins. But her arrival in Columbus has not gone unnoticed. At the heartbreaking conclusion of Waking the Witch, Savannah swore that she would give up her powers if it would prevent further pain for a young orphan. Little did she know that someone would take her up on that promise. A sinister cult known as The Supernatural Liberation Movement is hell-bent on exposing the truth about supernaturals to the rest of the world. Their violent, ruthless plan has put everyone at risk:

Bitten by Kelley Armstrong on BookBub. THE FIRST NOVEL IN THE NEW YORK TIMES BESTSELLING OTHERWORLD SERIES. "Frisky Tells a rather sweet love story, and suggests that being a wolf may be more comfortable for a strong, smart woman than being human."â€”The New York Times Book Review Elena Michaels.

White Tweet Kelley Armstrong is a rising star in the publishing world. The Canadian author of the nationally bestselling Women of the Otherworld Series has a worldwide readership which is growing by leaps and bounds. Her first book, *Bitten*, was published in 2002. *Bitten* is set in contemporary urban America, with a twist. *Bitten* introduced readers to Elena Michaels, the only female werewolf in existence. *Bitten* enthralled readers with its likeable protagonist, its sly sense of humor and crisp writing. The movie rights were immediately snapped up by Warner Brothers and a script has been written for the film, with Angelia Jolie attached to the project to play werewolf Elena Michaels. *Bitten* was inspired by an X-Files episode. Dissatisfied with the ideas she was coming up with, she took a break to watch an episode of X-Files. It happened to be an episode about werewolves. With that spark of inspiration, she sat down and wrote a short story about a human woman who becomes a werewolf. That story featured Elena Michaels; it eventually was sold in novel form as *Bitten*. The book was an immediate hit with reviewers and fans, and the Women of the Otherworld series was born. Wary of being typecast as a werewolf author, Kelley introduced many other supernatural species in the next book, *Stolen*. The next two books in the series, *Dime Store Magic* and *Industrial Magic*, focus on fledgling witch Paige Winterbourne and her half-demon attorney boyfriend, Lucas Cortez, who is the reluctant heir to the Cortez Cabal, one of the most powerful demon business organizations. *Industrial Magic* has Paige and Lucas working as private detectives to track down a serial killer who is preying on children. She uses the fantastic and her innate sense of the absurd to shine a light on some very human institutions. The demon Cabals, for example, work much like the Mafia -- but they also offer Canadian-style health coverage for their employees and families. American readers, at least, will see the humor in the fact that the demons offer better health care coverage than what is offered by most American corporations. Kelley grew up in Canada. She describes her background as "very middle-class, very WASP. When she got to high school, she developed another love: She graduated from university with a degree in psychology. She then decided to study computer programming, and took a job in that field so she could continue to write fiction in the evenings and on weekends. The growing popularity of her books has led to "contract season" for Kelley. She is under contract from her American, Canadian and British publishers for up to nine books in the Women of the Otherworld series, which is good news for her growing fan base. Kelley spends quite a bit of time creating content for her fans on her excellent author website. The website offers free e-novellas set in the Otherworld, an online discussion forum, soundtracks for each book, an online book club and downloadable bookmarks and screensavers. Married with three children, Kelley lives in rural Ontario, Canada. Kelley spoke with us about her move from computer programmer to bestselling author and how she created the Women of the Otherworld series. She also shares her secrets for juggling her parenting duties with the demands of her burgeoning writing career. What did you like to read when you were growing up? Who were your favorite authors? Click here for ordering information. Growing up, I read just about anything I could get my hands on. My favorite stories were those with a good dose of adventure or mystery, especially if they also included animals or supernatural characters. What was the first fiction you ever wrote? What reaction did you receive? I do know that in public school I was often praised for my writing, which encouraged me to continue. How did you get interested in computers? I understand you switched majors in college? When I was in high school, computers were my favorite subject. So I went to university for psychology. There was a tough decision to make, but I decided to go back to community college for computer programming, so I could get a regular job that would leave time for writing. Please tell us about your road to publication. What led up to the publication of your first book, *Bitten*? What was it that made you decide to finally sit down and write the novel? You have to go after it with a club. I wrote a short story about a female werewolf, and had so much fun with the character that I decided to try putting her into a novel. But I loved the werewolf novel, and kept returning to it. When it was

done, I decided to show it to a writing instructor of mine and asked whether the project was worth pursuing. He read *Bitten*, and offered to recommend me to an agent. In *Dime Store Magic*, we move away from the world of Elena Michaels and the werewolves to Boston, Massachusetts and Paige Winterbourne, an apprentice witch who is having quite a bit of trouble with her coven. Paige is a very interesting young woman. She has hidden talents, lots of challenges -- and had a complex relationship with her mother. What was the greatest challenge in creating Paige? Were there any characteristics that you particularly wanted to avoid with her? The greatest challenge in creating Paige was to make her very different from my first protagonist, Elena Michaels. The last thing I wanted was to create someone who was just a witch version of my first narrator. Paige has an intriguing love interest, Lucas Cortez, the rebel son of the head of the largest Cabal. But sometimes the things he does and says are a bit ambiguous. How did you create Lucas? What is the greatest challenge in writing this character -- and his relationship with Paige? With Lucas, I also wanted to avoid repeating my first male love interest. Like Paige, I wanted to make him strong, but in a way that was different than the werewolves. With Lucas, I wanted to take this one step farther, that he not only rejects their values, but actively works against them. Then I complicated it by giving him a more complex, and more affectionate relationship with his father than one would expect in this situation. That gives me lots of opportunities for conflict, for now and for future books. In *Industrial Magic*, we learn quite a bit more about the Cabals. What was your inspiration for the Cabals? They kind of remind me of the Mafia, but with demons. Yup, the Mafia was definitely one of my influences with the Cabals. I envisioned them as a cross between the Mafia and a corporation, kind of a tongue in cheek poke at corporate North America. It was a lot of fun to explore the Cabals more in *Industrial Magic*, and I hope to have more of them in future books. Would you take us through a typical writing day for you? I have three children ages 4, 5, and 12 and having the two little ones means I need to set aside specific time for writing, and to write when I have that time. I do most of my writing in my office, which is in the farthest corner of my basement. Would you say that you are more of a visual or an auditory writer? I would consider myself more of a visual writer. I tend to see the scenes unfolding before me, like a movie. I do hear the characters speak, but usually as part of a visual scene. What are your thoughts on narrative voice? Narrative voice can be tricky. When I write in third person, I try to keep the narrative voice as neutral as possible. As much as I tried to make the voice individual for the character, there are definitely aspects of my own narrative voice that slip in. When you begin a new book, do you outline the plot first? Or is it a more organic process of creation? Writing used to be very organic for me. Then I started getting deadlines! What works best for me is a very basic outline of plot points this happens, and then this happens, and so on. My final product always resembles my outline, but never follows it exactly. How do you approach editing and re-writes? Do you let anyone else read your work in progress before it goes to your editor? I used to do a lot of editing as I wrote. Now, though, I try to get the first draft completely done before I edit anything. Otherwise, I find I can get caught in a vicious cycle of writing and editing. As for who sees my work before my editor, I have writing friends and writing group members who will see parts of it, and my agent reads the whole thing before I send it out. Can you give us a sneak peek into the next book, *Haunted*? Eve is such a multi-faceted character.

Chapter 3 : Otherworld â€“ Kelley Armstrong

The series began in with Bitten, featuring werewolf Elena Michaels. It continued for thirteen novels, introducing other supernatural characters-witches, ghosts, necromancers, half-demons-and spinning off to their stories, and expanding the series into a multi-narrator fantasy world.

Elena Michaels is a model woman for the 21st century: And like every modern woman, she has her secrets. Nothing extraordinary about that. Except that Elena really is extraordinary. In fact, she may well be the most extraordinary woman alive. She is, after all, the only female werewolf in the world. Some days it feels like a gift. Most days it feels like a curse. A year ago, she decided to live as a human. Now she has to go back to New York State, her old home. Her pack is under siege by a new group of violent, psychotic werewolves that shows no respect for the old ways, and no respect for territory. Forced into helping her old friends, Elena soon slips back into the reassuring camaraderie of the pack, though she struggles against her dangerous, unpredictable desires. Hunting down her enemies, Elena prowls through territories usually barred to women. From dangerous back alleys to the dark, luscious forests of New York State, she must hunt and destroy the renegade pack before they destroy her. Gory, sexy fun" SFX" My love affair with urban fantasy started a long time ago, when I was an early teenager. A Women of the Otherworld novel 8. Have you read Bitten? Bitten reader reviews Lauren from United States Bitten is a story about a female character trying to forget her past. Which cannot be nipped in the bud as the bud as already been nipped. Literally, by a werewolf. What makes this book interesting is that Elena is the only surviving female werewolf. To date, no female has ever been born a werewolf and no female has ever survived the change. Which makes her a commodity. Awkward for a woman who is just trying to pretend that she is a normal human. Once the story rolls on, we find that Elena was betrayed and the hiding makes sense. Unfortunately, this is where the book starts to get predictable. It also fits oddly with the introduction of the character, as Elena just drifts back into her old life that she was trying to escape. I did like the writing of this book, but the inconsistency of the main character struck me as strange. This did not stop me from reading all the Women of the Other World series. As the series develops, Elena move on to be a more independent character. Overall, this book is an 8 as a paranormal romance with a werewolf thriller backstory.

Chapter 4 : Will the Summoning by Kelley Armstrong be made into a movie

Kelley Armstrong proves that you can still take an old, tired and overused storyline and make it great and entertaining. Her book is sexy, intelligently written and highly theinnatdunvilla.com is a young woman who was once bitten by a werewolf, which inevitably turned her into one as well.

March Learn how and when to remove this template message The story begins with Elena travelling to Pittsburgh, Pennsylvania to follow up a lead the Pack have come across on believe. However, when she meets her contact, a young witch named Paige Winterbourne, she has information that Elena finds extremely disturbing. Not only does she claim to know about werewolves, but more specifically about her. It is clear that the posting on the website was a lure designed to bring Elena to Pittsburgh because of problems other supernaturals have been having with a group headed by Tyrone Winsloe. Elena is skeptical, having given no credence up to this point that other supernatural beings such as witches and vampires could exist. The claims of Paige and her mother, Ruth, sound like conspiracy theories that Elena finds hard to believe. Unable to sleep, she goes out that night for a run, but is followed by a stalker with military training. Elena evades him only to discover that he has colleagues and that they are trying to capture not only herself, but also the Winterbournes. Ruth casts a spell which traps him temporarily and the three women make their escape. Elena calls Jeremy and, the next morning, the two of them attend a meeting of the Inter-racial Council. There they are told about a shaman who had been kidnapped and taken away from his home in Virginia to a compound run by Tyrone Winsloe and Lawrence Matasumi. With his abilities of Astral projection , the shaman is able to not only determine that he is not the only captive, but also to contact the shaman on the Inter-racial Council, Kenneth. Following the discussion about how to handle matters, Jeremy declines to return to the meeting after dinner. His priority is first and foremost to the Pack and its safety. Whilst he is prepared to join forces with the Council if necessary, it is only a temporary measure as the Pack has always fought its own battles. That night Clay arrives. The three werewolves are attacked by men working for Winsloe, but they are all killed. The Pack are suspicious because the only people who knew they were in the area where the members of the Council. So, the following day, when they arrive at the meeting, they do so with the head of one of the men in a bag. They decline any offer to align themselves with the Council and leave. On the way back, Elena is kidnapped and taken to the compound. She discovers Ruth has also been kidnapped. The witch is particularly interested in another prisoner, Savannah Levine. Her body reacts as if she has been bitten, and she is taken to the infirmary. While there, Bauer kills Carmichael and Elena is forced to sedate her. Prisoners such as Patrick Lake and Armen Haig are killed during these and it becomes clear that Elena is next. Winsloe brings her photographs that he claims are of Clay and that Clay is now dead. An apparent system malfunction provides the opportunity for Elena, Sondra, Leah and Savannah to attempt escape. Bauer loses control and is killed by the guards. Leah and Savannah get left behind when an elevator door closes on Elena. She makes a run for it, Changing into a wolf, and is chased by dogs. Clay finds her and takes her back to Jeremy and the others who are in New Brunswick, Canada. After telling her story, the group devise a plan to free the others from the compound and to put a stop to Ty Winsloe and his associates. Clay, Paige, Adam and Elena enter the compound first. They kill the dogs and disable the vehicles before entering the building itself. Tucker and the guards are killed or disabled before they enter the cell block. There they find Savannah. Curtis Zaid is revealed to be Isaac Katzen when he attacks Paige and the others. Leah is shown to be the one really responsible for the poltergeist activity. She attempts to snatch Savannah, but is prevented and escapes. Clay and Elena track Winsloe and kill him.

Chapter 5 : Bitten by Kelley Armstrong - BookBub

Bitten is a story about a female character trying to forget her past. Which cannot be nipped in the bud as the bud as already been nipped. Literally, by a werewolf.

Plot introduction[edit] Elena Michaels is the only known female werewolf, but she grows tired of spending her life pursuing rogue werewolves and trying to control her temper and violence. She decides to leave her Pack and live in Toronto as a human, but the Pack leader calls in a favor, which leads Elena to try to help quell an uprising. She lives in Toronto, Ontario , Canada, and writes for a popular newspaper. She struggles to deal with her other-ness and to assimilate to the human world. She also contends with her terrible childhood and with the man who bit her and turned her into a werewolf. Elena has settled into a somewhat normal existence, living with her architect boyfriend and ignoring her wolf side as much as possible. However, she learns that her Pack the governing body of werewolves is in trouble and comes to their aid, flying to Stonehaven, the country estate of the pack Alpha. It is in Bear Valley, a fictional city in up-state New York. When Elena arrives, she is greeted by her ex-lover, Clayton Danvers , who bit her and made her a werewolf without her consent. Clayton is also the bodyguard and foster-son to Jeremy Danvers , the pack Alpha leader. However, the Pack has determined that she was murdered by a Mutt, a rogue werewolf. They find out he is a recently escaped killer who was recently turned into a werewolf. Clay and Elena chase him into a rave and after several of the partygoers are killed, the wolf is hit by an SUV. Soon, the rest of the Pack arrives to help with the problem: The werewolf Pack are the self-appointed governing body of the werewolf world. If they feel any non-Pack wolves called "Mutts" become noticeable to humans, they kill them. First, Logan is killed. In an ambush Peter is killed and Jeremy, the Alpha, is seriously wounded. Finally, the pack figures out that the "mutts", tired of being governed by the Pack, are trying to free themselves from their rule. To do this, one mutt, Daniel, has started turning human killers and other escaped convicts into werewolves to fight the pack. The best friend of the Alpha Wolf Jeremy. Clayton Clay The hayee Danvers â€” Bitten as a child, is seen as more wolf than human. Elena Michaels â€” Journalist and the only known female werewolf. Bitten by then-lover, Clayton. Her parents died in a car crash while she was young, which sent her into many abusive foster families. Determined to leave that life behind, she focused on school and went to college, where she met Clayton. Used to live with the pack but attempted to leave at one point. Lives in Toronto with her boyfriend Philip. Jeremy Danvers â€” Alpha werewolf and leader of the Pack. Possesses psychic abilities used to contact other Pack members. A hereditary werewolf, he has the unusual for a werewolf hobby of marksmanship. Logan Jonsen â€” Hereditary werewolf, close friend, almost like a brother, to Elena. Also on the outskirts of the Pack. Works as a sound engineer for top bands on tour. He once accidentally murdered two women, was rescued by Jeremy. Killed by Mutt Thomas LeBlanc. Mutts[edit] Daniel Santos â€” Hereditary werewolf and a former member of the Pack. He left the pack after Clayton killed Stephen Santos, his brother. He loathes Clayton and believes Elena should be "his". A man-killer considered dangerous and possibly insane by the pack, he was betrayed and killed by Thomas LeBlanc. Karl Marsten â€” Hereditary werewolf and wealthy professional thief who is seeking territory to settle in. Considered the second most dangerous Mutt by the pack but also sociable. Scott Brandon â€” Bitten werewolf, he is a serial killer turned by Karl Marsten; shot and killed by a police officer and then hit by an oncoming truck. Thomas LeBlanc â€” Bitten werewolf, also a serial killer turned by Daniel. Targets women and killed by Elena. Zachary Cain â€” Hereditary werewolf, he is huge and an excellent fighter, but not very bright. After being interrogated by Jeremy and Clayton, he is killed by Clayton. Lives in Toronto, where he works as an architect. Concept and creation[edit] Armstrong says Bitten was inspired by an X-Files episode on werewolves. She had the idea to portray werewolves as other than "bloodthirsty, ravening beasts" and quickly wrote a short story about a young woman who becomes a werewolf to present to her writing group. Eventually, Armstrong fleshed out the short story into a novel that became Bitten. Werewolves can be killed by anything that can kill a human and have no extra sensitivity to silver. They age slower than humans. For example, Antonio and his son Nick, despite an age gap of 17 years, pass themselves off as brothers in human company. In both forms, they have greater strength and reflexes than

a normal human or wolf and heal significantly faster. Hereditary werewolves acquire these enhanced abilities gradually, following puberty, and have their first change in their late teens or early 20s. Non-hereditary werewolves start changing shortly after they are bitten, and not all survive the process; the bitten mutts took around a month to recover. In the case of Clay, he could transform and had the enhanced abilities from when he was bitten at around age five. Awards and nominations[edit] Screen adaptations[edit] For a while, there was discussion of making a movie adaptation of this novel. Angelina Jolie was approached to play the central role of Elena. A script is still floating around for it. The part series was scheduled to premiere in fall [5] but was pushed back and premiered in January First released in the U. Released in trade paperback in January by Plume books. Released in mass market paperback in August by Plume books.
