

Chapter 1 : Bringing up a beauty

From messed up art projects to accidents on neighbors carpets Elizabeth knows that bringing up Beauty will not be easy. Elizabeth family just don't have the time to help. Her mother is a environmental freak, older sister Debra is an artist and is to obsessed with her boyfriend to care about what goes on in Elizabeth's life and her dad, well let's.

Aruna runs a training centre called Rivet Consulting and conducts personality development workshops for people in the corporate world. Inderlal wanted Yukta to become an architect or a doctor and reluctantly allowed her to take part in a beauty contest. As far as I remember my mom always guided and taught me to conduct myself like a lady. After seven years, Mom decided that we should return to India. I learnt from her to become a strong individual without depending on others. She encouraged me to do well in everything, be it studies or extra-curricular activities. I used to be scared of maths, but she told me to believe in myself and said if other students could do it, so could I. Her encouragement helped me so much that I ended up topping my class. She had no qualms about it, but was worried about how the rest of our joint family would take it. Finally I managed to convince everyone and was given the go ahead. Whenever I returned home from a training session I discussed it with her. As a teenager, I had my differences with her. Now I realise whatever parents say makes sense and you realise this as you grow older. Though he was apprehensive about my going for the Miss India contest, he gave in when I told him I really wanted to give it a shot. He just asked me to be firm and conduct myself in such a manner that no man should ever be able to take me for granted. I understood what he meant. As a father he has always fulfilled his promises. When I was in class 10, he promised to take me for a movie once my exams were over. He stood by his word and I still remember we watched not one, but three movies back to back that day. As a child when Yukta was old enough to walk and talk, I noticed she was very determined about everything, even if it was tying her shoelaces. I would ask her to let me do it for her, but she would decline. After having managed on her own, she would come to me gleefully and flaunt it. I also saw that she was fascinated by music. Even in the cradle, she would just turn towards the music system as if listening and enjoying it. The only thing I was apprehensive about was how our family would react. But Yukta managed to convince everyone and proved herself by winning the contest. I brought Yukta up in such a way that she always discussed everything and talked her heart out to me. I have never had any problems with her because she has always been obedient. But one habit I would like her to work on is keeping her room and clothes tidy and organised. She has to travel a lot and is constantly on the move. As a result she just leaves her room in a mess. Yukta was a very sweet child and now she is even sweeter. As a kid, she was very bright and confident and participated in a number of activities in school. She was a very good speaker in school and never really had stage fright. She wanted to get into films and wanted to begin with modelling. She told me that she wanted to join the Miss India contest. Yukta has proved herself and done me proud. Like every father I would like her to settle down happily with a man of her choice. At the end of the day, I want Yukta to be happy and successful in whatever she does.
