

Chapter 1 : Child in darkness | Open Library

Child In Darkness has ratings and 7 reviews. Odette said: I read this book when I was about 12 years old, and I can to this day still remember the vi.

An only child spends much time in his tree house near a boarded up cave. One day he is aware of a being in the cave. This excites his natural curiosity and he endeavours to entice a creature out. A friendship ensues and this leads to his disappearance and a frantic search by his parents who had not been prepared to listen to his pleas. The ending sparks interesting discussion. Another book by this author: Forever in the land. He is constantly teased at school and treated as a wimp. When he is allowed to go on a school outing he is very excited. Unfortunately his tormenters at school plot to tease him and change the plans of the hike. Things go horribly wrong and the children are left fighting for their lives. A good story especially as our boys have many outings and camps and serves as a good lesson in team spirit and sticking to the instructions laid down. It is a story of remote country farms, country inns, smugglers, coves, Redcoats and soldiers and customs men, horses and carriages and kidnapping. It is an exciting read from beginning to end. Published by Puffin Books. Another funny and enjoyable book by Gleitzman. Jake is a lonely, only child of parents struggling to make ends meet running an Adults Only hotel on an island. In trying to help his parents, Jake discovers that he is not the only child on the island as he finds out about the history of the hotel. For the lovers of fantasy this and the sequels, provide much enjoyable reading. The animals escape to the nearby woods from where they launch a campaign to recover their lands. The language is rich and I often feel that these books are being read by children who are too young to understand the quite advanced vocabulary. Other books by this author: Simon has Muscular Dystrophy. This is the first of 5 books about toys coming to life and the problems they cause for the children who have discovered them. What is good is that some of the toys are rather unpleasant and it certainly makes the children sit up and think. I think the book is better than the film. This is the first of 4 books. With the exception of Tolkien, this must be the greatest fantasy story, full of magic, dragons, dangerous voyages and a very human hero. This is a very exciting and extremely funny book. It may be a long book to read but there are many lively characters and once you have read it you will be a Pratchett fan forever. Published by Doubleday Great Britain, Using their computer skills, they hack into the system. It is a race against time and odds. There are many more enjoyable stories by this authoress. After training, they set off on a voyage around the world. During a storm, Michael is swept overboard while trying to rescue his dog. He is washed up on an island in the Pacific. He struggles to find food and water. This is a magnificent story of discovery. It is exciting and thought-provoking. Published by Julia MacRae Books This is a good read especially for lovers of Science Fiction. The inhabitants of ArcOne are ruled by a rigid class system imposed by computer. A rebellion breaks out and Tomi, the son of the overlord, escapes but find himself in the strange world outside. His life is saved by some villagers and Tomi learns some serious lessons. Children seem to be drawn to books on Dracula or vampires. Count Alucard Dracula backwards is a harmless, vegetarian vampire who travels with his coffin!! After stirring up a tornado at the airport, he escapes and seeks refuge in a peaceful country hotel for a quiet holiday break. Unfortunately there are many activities taking place at that hotel that weekend including a dog show. When the dogs get wind of the poor count the fun and games begin. The result is rather slap stick but will appeal to the Grade 6 or 5 reader. Published by Penguin Group London For those who enjoy fantasy, this is a wonderful book. It is fast moving, clever, tongue in cheek and modern. Artemis is a 12 year old brilliant, criminal mastermind. He does, however, take on a bit more than he can chew. The fairy police counteract with vigour. Published by Bloomsbury Publishing London Living in Africa, we are aware of the plight of so many children who are victims of civil war but we rarely get involved or properly understand what difficulties they experience. Alem is brought to London by his father. He is Ethiopian but his mother is Eritrean. These two countries are at war and there is no future or safe place for this child. Then his father abandons Alem who is cared for by the Refugee Council and fostered by a wonderful family. Will he be allowed to stay in England? This is a story about an extremely brave and gifted child alone in a strange country far from the warm sun of Africa and his people. Mike is the middle child, sandwiched

between his hardworking, capable elder brother and his madcap, impulsive dare-devil sister. He is not an achiever and constantly feels inadequate. Then his antique dealer father brings home an Antique Cabinet of Curiosities. Inside is an old bottle. This leads Mike to have to make some choices and he finds that he grows in confidence. He is forced to make his own decisions and begins to assert himself. At first this story seemed a bit far-fetched but as I read on, I became enthralled. This is an unusual story set amongst the Canals of Venice. Two orphaned children flee to Venice to escape abusive adopted parents. They are befriended by a group of street children and their mysterious leader, the Thief Lord. On their trail is a rather strange detective. I was immediately absorbed by this tale although it did rather fall away at the end.
