May 24, The clown act omnibus escape act is simply a big build up from the ring master followed by a clown failing to escape. It mentions nothing of the jacket, or even funny positions. It simply states, "the ringmaster counts from 15 down to 1, and on the last number he draws aside the screen revealing Escapo still handcuffed. Ring master looks embarrassed What you are purchasing here I am assuming is the "more disheveled" part. You are paying for the creative insight to turn the "great Escapo" into a clever play on words from straight jacket to suit jacket. And all the little nuiances in moving from disheveled pose to disheveled pose while getting the most comedy for the buck. Too often we look at the price of an effect and think WOW I could do that! It makes him unique. If Landan wants to take and sell his creativity please respect that and not take the suit coat idea and run. Let me be the first to say, "I hate buying a routine I have never seen! This routine tempts me. Primarily because I have the five card opener. I waivered back and forth on that purchase for a long time. Simple, someone I trusted had, and said it was worth it. It became an inspiration for a whole new opening segment for my show. I think Bill would be proud That is what I think this piece will do for me as well. Because of my past experience with the Five Card Opener I now have a certain "trust" in Bill, whom I have never met and I expect this product to be as well thought out. Does this mean that I feel I can buy this and carbon copy it right into my show? No, but if it is as well prepared as the opener, I probably could. What it means is I have another resource to look at and take pieces of to combine with the other resources above to make my own. For someone who really understands what it takes to create a routine, No problem. So I think I have talked myself into buying it now Simple Based on my experience with the five card opener. I have been looking at the Wakeling and Pendragon routines for my busking show, but thinking they were not quite right. This could work for me and my character. The premise is silly enough. Combine that with the ending in the Wakeling routine and we might have a winner! The question is rather, whether you be capable of learning it? Magic is somewhat like poetry, men are to be born so: I mean, with inclinations to it, though both may be heightened by discourse and prac Ojasa.
