

## Chapter 1 : Police officer cover letter | Career FAQs

*Covering the cops is often something a reporter does early in his career—an assignment that can provide him with enough war stories in six months to last him through years on the business page.*

Police corruption The code is considered to be an example of police corruption and misconduct. Officers who engaged in discriminatory arrests, physical or verbal harassment, and selective enforcement of the law may be considered to be corrupt. Many officers who follow the code may participate in some of these acts during their career for personal matters or in order to protect or support fellow officers. Officers who follow the code are unable to report fellow officers who participate in corruption due to the unwritten laws of their "police family. Officers who do not lie in court may sometimes be threatened and ostracized by fellow police officers. In , the Commission to Investigate Allegations of Police Corruption also known as the Mollen Commission undertook a two-year investigation on perjury in law enforcement. They discovered that some officers falsified documents such as arrest reports, warrants and evidence to provide "cover" for an illegal arrest or search. Some police officers also fabricated stories when testifying before a jury. The Commission found that the officers were not lying for greed but because they believed that they were imprisoning people who deserved it. Many prosecutors allowed police perjury to occur, as well. They train new recruits and investigate police officers if they have a complaint from a civilian or an alleged criminal. There are also some state laws put in place to help protect civilians and criminals from corrupt officers. If the officer is found guilty, officers can be sued by the victim for damage caused by police brutality , false arrest and imprisonment , malicious prosecution , and wrongful death. If an officer is in violation of any of the officer misconduct federal laws, only the federal government can issue a suit. The police department is only responsible for preventing corruption among officers. If an officer is convicted, they may be forced to pay high fines or be imprisoned. To be convicted, the plaintiffs must prove that the officer was following the "code" or participating in negligence and unlawful conduct. It is often hard to convict an officer of following the code or other forms of corruption because officers are protected by defense of immunity, which is an exemption from penalties and burdens that the law generally places on private citizens. Supreme Court has consistently held that officers be given the benefit of the doubt that they acted lawfully in fulfilling their duties, a position reaffirmed in *Saucier v. Katz* , U. In , the Mollen Commission , commissioned to investigate reports of police corruption in New York City, noted that "The pervasiveness of the code of silence is itself alarming. After that the International Association of Chiefs of Police made a code of police conduct publication and rigorously trained police officers. The officers involved were expected to have been following the "blue code". They claimed that the beating was lawful, but it was not until a videotape of the incident was released when it was confirmed that the officers had collectively fabricated their stories. In the later s, the FBI arrested 42 officers from five law enforcement agencies in on charges of conspiracy to distribute cocaine. In a report to U. Rangel, the federal General Accounting Office GAO found evidence of growing police involvement in drug sales, theft of drugs and money from drug dealers, and perjured testimony about illegal searches. The Pinkerton National Detective Agency was known for using police officers to violently end strikes. Many members of the Ku Klux Klan were police officers who protected each other when conducting racist acts. This later gave rise to the Civil Rights Act of , which gave new protections to the victims who had long suffered discriminatory policing. Police culture[ edit ] Police culture or "cop culture," as it is sometimes called by police officers, has resulted in a barrier against stopping corrupt officers. Police culture involves a set of values and rules that have evolved through the experiences of officers and which are affected by the environment in which they work. From the beginning of their career at their academies, police are brought into this "cop culture. Some words used to describe these values are as follows: The unique demands that are placed on police officers, such as the threat of danger, as well as scrutiny by the public, generate a tightly woven environment conducive to the development of feelings of loyalty. The us-against-them mentality that can result leads to officers backing each other up and staying loyal to one another; in some situations it leads to not "ratting" on fellow officers. The low number of officers coming forward may have to do with the understanding that things happen in the

heat of the moment that some officers would rather keep personal. Another reason officers may hesitate to go against the blue code may be that challenging the blue code would mean challenging long-standing traditions and feelings of brotherhood within the institution. The fear of consequences may play a large role as well. There are also forces that work against the code and promote whistleblowing. Many police officers do join the police force because they want to uphold the law; the blue code goes against this ideal. Additionally, some officers are recruited by their administration to inform. Officers who go against the blue code may have a deal to avoid being fired or to receive immunity from prosecution. Some officers have also been known to break the code to sell a story to the media. One study showed that excessive use of force was the crime most commonly shielded by the code. Many states have taken measures in police academies to promote the exposure of the blue code. In most cities, before being admitted into the academy one must pass a criminal background check. Through additional background checks, polygraph testing, and psychological evaluations, certain departments are better able to select individuals who are less likely to condone wrongdoing. In these departments, police are exposed to a basic training curriculum that instructs on ethical behavior; this instruction is reinforced in seminars and classes annually in some cases.

### Chapter 2 : Chicago Tribune - We are currently unavailable in your region

*Covering the crime beat is demanding and often stressful, and as a reporter, it takes time, patience and skill to get the cops to trust you enough to give you information. So here are some steps you can follow for producing solid police stories.*

Sign up for email alerts Enter your email address to follow this blog and receive notifications of new posts by email. The media stays silent after originally misreporting the story as a failed robbery. The story got more bizarre from there. Police, in cooperation with the Star-Tribune, concocted an entire false narrative to ensure that nobody got the idea that Somali refugees were knifing shoppers at the iconic mall in the name of Islam. The Star-Tribune, spinning outright lies, went on to report: Two men were trying on clothes and walked out of the fitting room to show others in their group. He was trying to carve up two white American men with a knife in the name of Allah and jihad. We know this because when he finally had his day in court last Thursday, he told us exactly what his intentions were. In a statement to the court , Abdiraham said he went to the Mall of America on Nov. Paul area to try to delay, conflate and suppress the truth from getting out to the public. First and foremost, his identity as a refugee must never released until months later when he shows up in court, long after anyone is paying attention. We saw this same game of cover-up in other recent incidents: The police said it was a failed robbery, even though Evenson said her attacker never reached for her purse. Last July when Justine Damond was gunned down by a Somali cop in Minneapolis as she came out pleading for help in her nightgown, we saw more of the same shenanigans. Nine months later the Minneapolis Police Department seems incapable of determining why Officer Mohamed Noor shot the unarmed white woman. In June Minneapolis police again did their best duck and cover routine when residents of the Linden Hills community were terrorized by a gang of Somali youths for three straight days. The police were called repeatedly but never seemed to be able to make it to the neighborhood before the Somali mob disappeared. No arrests were made and the Star Tribune ignored the story, which I documented in my book Stealth Invasion by interviewing residents. Minneapolis Police Department has tolerated an active Sharia cop who patrols Somali neighborhoods making sure Islamic dress codes and other Sharia rules are being followed. All of the apartments were occupied by Somali residents. Was it a slip of the tongue? Omar Jamal, a longtime Somali leader in Minnesota, says the mall stabber is not alone in his hatred of America. A spokesman for the FBI said the agency is aware of the statement, but could not comment. If authorities determine the stabbing was an act of terrorism, there could be more legal consequences for Abdiraham. Muslim Conquest through Immigration and Resettlement Jihad.

The mildest case, not quite a cover-up, is simply to release news which could be embarrassing but is not important enough to guarantee attention, at a time when other news is dominating the headlines, or immediately before a holiday or weekend. Initially a cover-up may require little effort; it will be carried out by those closely involved with the misdeed. Once some hint of the hidden matter starts to become known, the cover-up gradually draws all the top leadership, at least, of an organization into complicity in covering up a misdeed or even crime that may have originally been committed by a few of its members acting independently. This may be regarded as tacit approval of that behaviour. Many fail, however, as more and more people are drawn in and the possibility of exposure makes potential accomplices fearful of supporting the cover-up and as loose ends that may never normally have been noticed start to stand out. As it spreads, the cover-up itself creates yet more suspicious circumstances. The original misdeed being covered may be relatively minor, such as the "third-rate burglary" which started the Watergate scandal , but the cover-up adds so many additional crimes obstruction of justice , perjury , payoffs and bribes , in some cases suspicious suicides or outright murder that the cover-up becomes much more serious than the original crime. Cover-ups do not necessarily require the active manipulation of facts or circumstances. Arguably the most common form of cover-up is one of non-action. It is the conscious failure to release incriminating information by a third party. This "passive cover-up" is often justified by the motive of not wanting to embarrass the culprit or expose them to criminal prosecution or even the belief that the cover-up is justified by protecting the greater community from scandal. Yet, because of the passive cover-up, the misdeed often goes undiscovered and results in harm to others ensuing from its failure to be discovered. Real cover-ups are common enough, but any event which is not completely clear is likely to give rise to a thicket of conspiracy theories alleging covering up of sometimes the weirdest and most unlikely conspiracies. Relevant discussion may be found on the talk page. April Learn how and when to remove this template message Old Thirty Nine shaking hands with his good brother the Pope of Italy , or covering up versus sealing up the Bible, by George Cruikshank. Tweed and Tammany Hall in the late s, [4] and the tobacco industry coverup of the health hazards of smoking. ### Chapter 4 : Covering The Corridor

*A profile of Edna Buchanan, a Pulitzer Prize-winning crime reporter for the Miami Herald during its heyday.*

It should pique the interest of the hiring manager so he or she pays special attention to your resume. Do explain why you feel you are the right person for the job. Do write in the language of the organization. Using common police terms will show that you are familiar with the workings of law enforcement. Model your police officer cover letter after these examples, and take the next step toward getting in uniform faster! In other words, you need to be tech-savvy and not afraid of good old-fashioned hard work. Here are a few tips about job-hunting in the modern landscape: Assess your job skills. Various websites offer assessments on interests, skills and work values that can help you determine the best career for you. Your contacts can help you with your job search. Start with your friends, family and neighbors. Reach out to former classmates, professors or teachers. Connect with acquaintances, former managers or co-workers. One of your contacts may be able to help you with job search questions or give you a job lead. Professional organizations with local chapters can help you in your job search. Some of the local chapters post openings for jobs in the area. Chapter members are more likely to know of upcoming job openings. Browse online job banks. When it comes to job hunting, you need to cover all your bases. That includes browsing and subscribing to online job alerts. Also, you can post your cover letter to the online job bank. However, be careful to not post personal information like your social security number. Public libraries often host job-hunting workshops, which include topics on cover letter help and interviewing skills. No matter the number of years of job experience or your career level, your cover letter plays an important role in finding jobs as a Police Officer. Format your cover letter with a bulleted style list. This type of formatting makes your cover letter easier to read. Make sure to put your contact information, such as your e-mail address, city, state and phone number. However, be careful to not list any information that can be used for identity theft. This helps to make an immediate impact at a glance. List your accomplishments in addition to describing your job duties and responsibilities.
