

Chapter 1 : Dallas Cowboys NFL - Cowboys News, Scores, Stats, Rumors & More - ESPN

*Cowboy (This Is What I Want to Be) [Heather Miller] on theinnatdunvilla.com *FREE* shipping on qualifying offers. An introduction to the equipment, clothing, daily activities, and other aspects of the job of a cowboy.*

She sounded calm and centered, even though the anxiety that comes with releasing a highly-anticipated album was hitting her full force. Despite being on the road for much of the past two years — from conventional, full-band tours to more unconventional, solo adventures — she managed to make *Be the Cowboy*, her stunning fifth studio album. Her lyrics are as smart and heart-wrenching as ever, but on *Be the Cowboy* we see more of Mitski the storyteller as she builds a specific character — a woman who is perhaps wound a little tight trying to keep it all together on a stage — as its star. Together, the songs on *Be the Cowboy* tell a story of tension between control and confusion, its musical variations tapping into the multifaceted adult anxieties related to maintaining an identity. Aside from the heavy stuff, the album maintains a sense of buoyancy as it leans into the inherent campiness of performance. I was thinking more of the Marlboro commercial cowboy, that incredibly exaggerated myth of the western cowboy. I stopped seeing him live, and I missed seeing that presence on stage. What does it mean to like push down your emotions in order to be responsible and fit into the working world? Did you use any instruments or techniques for the first time on *Be the Cowboy*? I did sort of change up how I record vocals. I think it just comes from having more confidence in my vocals. I used to not be able to project as much, so I would have to be right up at the mic, but now I can step back and be confident that my voice would still reach the mic in a good way. That also translated to not doubling any vocals. I left it bare a little more. The point is to express something. It makes for a better photo if I am more focused on making an interesting photo rather than looking pretty. That also translated to my vocals. The bio for the album says you were careful not to use distorted guitar because that became something people knew you for. The whole point of marketing is to distill a complex human being into an easily digestible symbol. I wanted to make sure that I was always seen as a sort of artist in a holistic sense. I wanted to be bigger than that. I wanted to be more complex and human than that. Were there any other challenges you put on yourself for recording *Be the Cowboy*? I very much am a people pleaser. I want everybody to be happy, so what I tend to do is overcompensate by making sure I do what people might not like. You eschew traditional choruses a lot on this album. Can you tell me about what the images you had in mind for that song? I try to keep a sense of humor about all this stuff. I used a stereotype of the suburban, old-fashioned housewife to kind of accentuate my point. But I think that dynamic still exists today even in like urban people or people who consider themselves no longer old-fashioned. Maybe in the next lifetime I will be somebody else. I am maintaining my position in this relationship. How do you find a balance between devotion to work and dependence on it? The thing about it is the music industry is not a place where balanced people survive. You really need to want it and you need to sacrifice your well-being to a large extent in order to survive it, or you need to shape your identity around what is needed of you as a musician. So I think the pursuit of a career in music in and of itself is not balanced, at least not as long as we have the music industry as it currently is. I try to maintain balance in very practical ways, maybe turning down some opportunities or turning down some tour dates to make sure that I go to the doctor or making sure I put breaks between tour dates. Do you feel like you learned something new making this record? I learned that I need to put limitations on myself during the creative process or else my anxiety takes hold and I give my brain room to doubt. It was just about trying to get it done. I think that actually helped my creative process. For this album, the process was really stretched out. It was whenever I had time between tours over the course of two years. That gave me a lot more time to doubt myself, to second guess, to go back and try to fix something and then forget what I was even trying to say in the beginning. I also realized I am smarter than I thought. I think because my previous records were so much about following instinct there was a part of me that doubted that I had the brains to create music rationally. For this album, I made a lot of very thoughtful, rational decisions because I had a lot more time.

A hired man, especially in the western United States, who tends cattle and performs many of his duties on horseback. Also called cowman, cowpoke, cowpuncher, also called regionally buckaroo, vaquero, waddy. A cowboy is man with guts and a horse. John Wayne about old time cowboys-- They were simple, direct men. They believed in things like liberty and minding their own business. When the first cowboys were herding longhorns up the Chisholm Trail from Texas to Kansas they were a pretty tough lot, but they had to be. It was a rough era in our history. There was no room for nuance or no time for luxury. Out of the lives of these cowboys have come all sorts of stories and legends, Some true and some fiction. But the most authentic and dependable evidence of what the cowboys really were has come from the artists who pictured them in their true environment, risking their lives in stampedes, freezing or sweating, under the stars, by lonely campfires, rowdying in saloons, fighting, branding and whooping it up around the chuck wagons. And when the gunsmoke clears away Cowboy Spirit wins the day. Think back about Flight 93 and how those heroes came to be. One widow had this tale to share. Be rough and ready for the fight. Be sure to mention that you saw this on www. A cowboy lives by "The Code of the West. The highest badge of honor a person can wear is honesty. Be mindful at all times. Your parents are the best friends you have. Listen to them and obey their instructions. If you want to be respected, you must respect others. Show good manners in every way. Only through hard work and study can you succeed. Your good deeds always come to light. If you waste time or money today, you will regret it tomorrow. Practice thrift in all ways. Many animals are good and loyal companions. Be friendly and kind to them. A strong, healthy body is a precious gift. Be neat and clean. Children in many foreign lands are less fortunate than you. Be glad and proud you are an American.
