Babylon was once a great and feared kingdom. Today, its capital city is a heap of dried bricks and stones in Iraq. Babylon, past and future, is a significant theme in the Bible. It is considered by some to be the place where life began and was the site where humans attempted to build a tower that would extend up to heaven Genesis Seeing what humans were trying to do, God confused their language so they could not complete the tower they had begun. This same city became the epitome of all idolatrous worship and the capital city of an empire with its name. The kingdom of Babylon would continue for another years beyond the life of Isaiah until B. The city would continue to be inhabited up until the Islamic invasions around A. The prophecy of Isaiah had a dual meaning. It not only referred to ancient Babylon, but also to a second Babylon, the Babylon of the book of Revelation Revelation Another Babylon When students of the Bible come to the book of Revelation , they find a Babylon much different from the one described in the Old Testament. In addition to being a great kingdom like the Babylon of the Old Testament, this Babylon is described as a woman who sits on a beast. Recording the vision he had seen, John wrote: And I saw a woman sitting on a scarlet beast which was full of names of blasphemy, having seven heads and ten horns. To understand this Babylon, we must first understand the symbolic language being used in the book of Revelation. There have been different ideas and opinions about this Babylon, in large part because men have read their own interpretations into these symbols. This usually results in false conclusions. The Bible interprets its symbols It is important to understand that when the Bible uses symbolic language, the Bible interprets its symbols for us. We do not have to guess at the meaning. For example, when a woman is used symbolically in Scripture, she represents a churchâ€”a group of people. The woman in Revelation 17 is a church, but not the Church that was established by Jesus Christ. Notice what this church does to those who obey God and follow Jesus Christ: This woman, called Babylon the Great, is an apostate church that has been responsible for the martyrdom of many true followers of Jesus Christ. At the time John wrote this verse, and in the centuries that followed, the city that reigned over the kings of the earth was Rome. Who are the beasts? The Bible says the woman rides or sits on a scarlet beast Revelation This beast is described in Revelation The dragon [Satan, Revelation Instead, it represents the civil government of the Roman Empire. Historically, the Roman Empire was overrun and came to an end in A. Ten horns Revelation The first revivals included the Vandals , the Heruli and the Ostrogoths The most recent revival was the German-Italian alliance under Hitler and Mussolini , which tried to unite Europe by force in the s and s. We are told in Revelation And he exercises all the authority of the first beast in his presence, and causes the earth and those who dwell in it to worship the first beast, whose deadly wound was healed. Two beasts prophesied by Daniel The book of Revelation is not the beginning of the prophecy of this union of church and state. The prophecy begins in the seventh chapter of Daniel. The first six verses of Daniel 7 recount the dream Daniel was given, symbolizing the first three great empires of the ancient world. Babylon was represented by a lion; Persia, by a bear; and Greece, by a leopard. In verse 7, Daniel continues: It had huge iron teeth; it was devouring, breaking in pieces, and trampling the residue with its feet. It was different from all the beasts that were before it, and it had ten horns. This is what the woman called Babylon the Great will do to true Christians Revelation Future actions of Babylon the Great So far, we have looked briefly at the prophecies of Babylon that have taken place over the last 2, years and at what it will do in the future. But what else does the Bible say about the future of this apostate church that is called Babylon the Great? The apostle Paul explained how this deception would come about in writing to the church at Thessalonica. God reveals that prior to the return of Jesus Christ many will be deceived by this coming individual and the false religious system that is behind him. Babylon the Great with its entire system centered in Rome and the final pope who is called a false prophet Revelation It also reveals that God will hold Babylon responsible for having martyred the true servants of Jesus Christ verses 20, A final warning The end of Babylon comes with a warning to all believers to act before it is too late. May we all heed this warning so we will not share in the sins of modern

In May of that year, his rating is more than nine hundred points below the best players. His invitation is a kind of novelty. In the tournament, Bobby draws the short straw to play against International Master Donald Byrne, a classic chess player in thick-rimmed glasses and bow-tie, with a cigarette dangling between two fingers. Bobby is dressed in a t-shirt. As the match begins, Bobby seems nervous. He moves his knight to the edge of the board, where it is boxed in and vulnerable. In the seventeenth move, Bobby seems to throw in the towel. He exposes his queen to Donald Byrne like a lamb to slaughter. The chess elite gathered around harrumph and smugly smile. This ending was, after all, inevitable. Nebuchadnezzar knows that Jewish resistance will be impossible if the Jews are scattered across the vast Babylonian Empire, far from Jerusalem. And so, their king deposed, their temple destroyed, the Jews are exiled. It seems to all the world that God has abandoned the Jewish people, that God has thrown in the towel, leaving them to their fate. Their hope sapped, separated from one another and from God, the Jews are ready, finally, to give up. It is then that the Prophet Jeremiah sends a letter to the scattered Jewish communities across Babylon, giving them what appears to be advice detached from all evidence of reality. To both the Jews and the looming Babylonians, Jeremiah is delusional. The ending to the Jewish story is inevitable, and for the Jews the only conceivable outcome is despair and death. He sees an alternate ending to the story, even when no one else can see it. And, he knows that it is often at the very bottom, the nadir of human experience —and only then—that we become vulnerable enough to perceive God at work. Trusting in God allows us to listen for God, which empowers us to work with God, newly participating in our own redemption. Now, at the moment of seeming despair, is when they can begin to cooperate with God in the very work of moving them from darkness to light. But that requires the Jews to trust and live in hope. The struggle is nowhere near over. He sacrifices his queen to bow-tied Donald Byrne. The world spins on. The gathered crowd gets confused. Someone seems to have revised the script. The ending has been rewritten. The thirteen-year-old boy triumphs. The chess world is stunned. The moment his queen was sacrificed, Bobby saw the way, move upon move, to victory. When it appeared the game was lost, it was, in fact, won. The kid in the t-shirt saw an alternative ending when no one else did. And the vision of that ultimate victory, sure and certain, propelled Bobby forward in hope and purpose.
