She is thrilled to empower you to understand the language of your dreams, so that you can more powerfully live the life of your dreams. I have four sisters that I love with all my heart. Growing up, my sister Shannon and I not only shared a bedroom, but we often shared dreams. The first dream I recall included me being chased by a witch around the turrets of a scary castle. My first love was Elvis—I literally dreamed about marrying him when I was five years old—and telling him that Pricilla would have to go! The first poem I ever memorized and recited was in 3rd grade, and it went like this: The optimist sees the doughnut, the pessimist sees the hole. To this day, when I get inspired by someone or something, my inner cheerleader comes takes over—and it can be quite obnoxious. My first college semester was in Seville, Spain—where I lived with a Spanish family, traveled throughout Europe, and managed to learn to speak conversational Spanish—thanks to then boyfriend, Jose Maria Luis. I still speak and understand Spanish to this day with a slight lisp. I got married to my beloved, Dana, in our backyard meadow in Topanga, CA, surrounded by a bevy of Goddesses—it was the most magnificent day of my life. I had a near-death experience—I went to the other side—and came back obviously —and quite literally saw the light—words cannot describe the beauty of the experience and the freedom of knowing that I have a body, but I am not my body—so much more. How to get the most from your D. Along those lines, after being asked repeatedly how I do what I do for a living, I decided to lay it out for people, and pay it forward to those who are interested in following my very bizarre footprints. In these precarious financial times, people are looking for out of the box ways to earn a living in a way that honors their soul—so I launched Dream-Life Coach Training to empower people to become Dream-Life Coaches. What is a Goddess Queen? It is a blend of two important female archetypes: They way the Goddess Queen expresses through us, is as unique as our thumbprint. The Goddess Queen is who you are naturally when you are in love or if you just won the lottery. I feel that it is important at this time in history or rather herstory that women become their highest and truest self. I began leading Goddess Queen Gatherings in an attempt to keep my own connection to my inner Goddess Queen alive. There is the reality that gravity is very real, as in it is easier to be sad than to be happy, depressed than inspired, to go down instead of up, so unless you are actively engaged in the energy of inspiration or the blissipline of being your best self, it is very easy to fall into desperation. So, I began ongoing gatherings in my attempt to create a place of inspiration for myself. It was selfish, or self-loving, and I did this in part to keep my higher self alive and strong, as well as to help others do the same. I realized that when we come together in a group, the energy we can create is extraordinary it multiplies, and it is exponential! When did you start inspiring others to have their own Goddess Queen gatherings? A friend of mine back when I started the Goddess Queen Gathering wanted to start her own gathering with her friends. She asked me how to do it. She wanted a step-by-step template. So, I created my book as a template for others to create their own gatherings. Exactly where is this "grassroots movement" taking place? Also, women tell me that they use the book as a fortune cookie. They flip it to a random page close their eyes and put their finger on a particular word or paragraph and let that be their inspirational thought, or pearl of wisdom for the day. I love doing that. It can be very powerful. I know you always have women bring a journal to your gatherings and I was wondering why? Journaling is a great way for women to find their own pearls of wisdom and inspirations that come from their own higher power. So, I have women bring journals with them to write down those pearls. I want journaling to be something special and treasured. I find in journaling that if we write long enough we will write our way through to the voice of our Goddess Queen. Yes, in every gathering I lead a guided visioning meditation process to help a woman connect with her wisdom and love. I put together the "Goddess Queen Guided Visioning CD" because women were telling me at the end of gatherings that this visioning was their favorite part and they wished they could have it every day. With this CD they can listen to a meditation every day or as often as they want. This is something that can be listened to before sleep or even in the car. It helps you connect to your source, which makes you magnetic to the things you want to bring into your life: Will Amazon be offering the journal and CD as well? Yes, the journal is available on www. What in your background contributed to you being such a supporter of women? Many women tell me that their experience in the Goddess Queen Gathering is the first time they felt support from women, because they normally feel in competition or unsafe with them. I think that is the experience that most women have. I think it is part of my mission to show women another way, and to make that way available to them. Also, the Goddess Queen gatherings are like a laboratory where women can practice expressing their high self-esteem. In fact, your high-self-esteem is celebrated in the Goddess Queen Gathering. You can practice feeling good about yourself and realize it is not only ok to do so, but that it is necessary. However, we tend to think that in order to bond we have to be not ok. The Goddess Queen gatherings show we can be who we are and we can still have friends and be celebrated for who we are, for doing great and feeling great. They give us permission to be our best selves. In these gatherings there is a safety net created. It is a space where you can tentatively begin to say and recognize how great you truly are. Because when you admit and recognize this then you are able to more powerfully engage in that and let it come to the surface where it can come out of the shadows, evolve and become something glorious. It is a way of seeing other women not as a competition or a threat but as a partner. We are in this together and as one of us is lifted we are all lifted. I am such a firm believer in the principle that when one of us is lifted we are all lifted. To do this, and just in time for the holidays might I add, I am offering a holiday gift from me to everyone. Cool, so if I go to Amazon. Within 24 hours you will receive an e-mail with instruction on how to receive your free gifts, services and discounts. This offer is valid for each book you buy. So if you buy 10

Success, fame, and good fortune Practicality, masculinity, dependability, and harmony Innocence, beauty, purity, and new beginnings Tahitian Black Pearls Tahitian black pearls are extremely rare. There are many Polynesian legends surrounding this opalescent gem. According to one myth, Oro, the god of peace and fertility, visited the earth on a rainbow to bring a magical oyster called The Ufi to the Polynesian people. When Oro discovered the beautiful black pearl that appeared from within The Ufi, he offered it to the princess Bora Bora as a symbol of his love. Another romantic tale tells of the full moon bathing in the dark ocean. The beams of light attracted oysters to the surface shimmering with heavenly dew. In time, the drops of dew cover the black pearl with colorful hues of blue, green, gold, and pink. Weddings, Pearls, and Love Wearing a veil covered with pearls, like this one, will help the bride to avoid crying on her wedding day, according to the Ancient Greeks. Source Ancient Greek legend thought that pearls were the tears of the gods. They also believed that wearing pearls would prevent women from crying on their wedding day. Hindu folklore speaks of pearls as dewdrops that fell out of the night, into the moonlit sea. One of the earliest accounts of pearls and weddings comes from the Hindu story of Krishna or Vishnu , who plucked the first pearl from the depths of the ocean and gave it to his daughter Pandaia on her wedding day as a symbol of love, union, and purity. Pearls in Religion White pearls are believed to be the tears Eve shed when she left Paradise. Source One of the earliest religious accounts of the pearl claims that Adam and Eve wept after they were cast out of Paradise, creating a lake of pearls. It is further said that men are better able to control their emotions, and so Adam shed fewer tears than Eve. This explains the rarity of the black pearl. Other religious references to pearls include: Christians and Hindus adopted the pearl as a symbol of purity. The tradition of a bride wearing pearls on her wedding day continues to this day. By the Middle Ages, pearls were considered sacred Christian objects due to their association with religious purity. Early Christians said the pearls covering the Holy Grail made its water pure. The Koran speaks of pearls as one of the great rewards found in Paradise, and the gem itself has become a symbol of perfection.

With a serene beauty, they make perfect complements to flashier gems. Yet, they also possess an elegance that can shine alone. Of course, their distinctive appearance and watery origins have inspired pearl symbolism and lore for centuries. Licensed under CC By 2. First recorded in history by a Chinese historian in 2, BCE, pearls have been valued as gemstones for millennia. While these others form as minerals underground, pearls have organic origins. They form within various species of freshwater and saltwater mollusks. Simply put, pearls are gems but not stones. However, the ancients made little distinction between pearls and actual stones. A type of freshwater mussel with a variety of freshwater pearls. Moon and Water Pearls, especially freshwater varieties, can occur in varied and unusual but beautiful shapes. However, soft white lustrous orbs, more commonly found among saltwater pearls, have become an idealized standard. Of course, this shape strongly evokes the Moon. Not surprisingly, many cultures have made lunar associations with pearls. Photo by Anna reg. In Western cultures, the pearl has astrological associations with the planet Venus. Like pearls, the goddess of love came from the sea. Due to their shape, pearls have another watery association. Some stories say white pearls are tears shed by the gods. One legend says the tears Eve cried when she was banished from Eden turned to pearls. Two teardrop-shaped freshwater pearls with diamond accents and pear-cut rubellites. The search for the perfect pearl, whether natural or farmed, has gone on for centuries. In fact, evidence of pearl cultivation goes back to at least the 13th century CE. In ancient times, the expense of perfect pearls gave rise to a curious spell for increasing wealth. The caster would select a particularly fine pearl, infuse it with the desire for riches, and then throw it away into a rubbish heap. The idea behind this sympathetic magic practice was that someone who could throw away pearls was rich indeed. The rarity and expense of pearls also contributed to some common expressions still used today. In The Bible, Matthew 7: When wisdom is given, treasure it like a rare pearl. Are Pearls Feminine Jewels? This celebrated painting by Johannes Vermeer, Girl with a Pearl Earring, has inspired a novel, a play, and a film. From the collection of the Mauritshuis, The Hague, Netherlands. Western cultures still commonly associate the color white with innocence and purity, which in turn is associated with weddings. As white gems, pearls remain popular gifts for brides. Brides in Asia also wear pearl necklaces as symbols of fertility. Even today, despite concerted marketing efforts, pearls are worn commonly by women but rarely by men. In ancient times, kings wore ropes of pearls as a mark of wealth. They dive without scuba gear. When Mikimoto Kokichi began to cultivate Akoya pearls in the s, these women were crucial to his success. Colors and Legends Few gems are as varied in shape and color as pearls. According to Polynesian lore, the god Lono came down on a rainbow to a princess, carrying black pearls with him as gifts. The black pearls, with their beautiful iridescence, were imbued with the colors of the rainbow. Traditionally, the Chinese love golden pearls, believing they bring prosperity and luck. Chinese artworks often depict dragons holding golden pearls in their mouths or claws. Pearls and Chinese Dragons One early Chinese myth related that pearls fell from the sky when dragons fought amongst the clouds. Another myth states that pearls originated as raindrops swallowed by oysters. In one ancient tale, a boy found a miraculous pearl. When placed in a jar with just a bit of rice, it filled the jar with rice the next day. After his neighbors discovered this, they tried to steal it. The boy swallowed the pearl to protect it. As a result, he became a dragon. This porcelain incense burner depicts dragons chasing a pearl. The Wu family offered this item to the Temple of the Lord of the Black Heaven for the protection of their home. China, Ming Dynasty, CE, Gift of Stanley Herzman, in memory of Gladys Herzman, Metropolitan Museum of Art, New York. The pearl represented the journey of the soul or spirit along the path to perfection. In ancient burials, mourners placed pearls in the mouths of the deceased. Since pearls apparently contained the principles of life, they hoped they could assist the dead on their journeys beyond. Mourners also decorated burial gifts and clothes with pearls. This seemingly ritual act

may have started as a practical act. Pearls were among the first materials used for beads. Their natural bead-like shape made them easy to use for decoration and yielded lovely results. The violence associated with removing pearls from their natural abode living creatures has given them a reputation as unlucky. However, most of the superstitions surrounding the unluckiness of pearls go back to the ideal of their purity. Any pearl jewelry with malice or jealousy in its past builds a reputation for bringing bad luck to those sharing the same traits. If given in love with a pure heart, a pearl always symbolizes purity, fertility, and the cycles of life. She got her start in gemology translating and editing Colored Stone and Mineral Highlights for a professor based in Shanghai.

This book also demonstrates how sexually themed dreams may be related to issues completely unrelated to sex. The Love, Sex, and Relationship Dream Dictionary identifies and defines more than 1,000 common symbols, themes, and images from your dreams. It also includes tools for interpretation. Whether we admit it or not, we all have love, sex, and relationships on the brain. Our dreams are our secret weapon. How will I attract my soul mate? Will I ever meet the man or woman of my dreams? Once I find the love of my life, how do I keep him or her from leaving? Why am I so afraid my partner will cheat on me, leave me, or stop loving me? Why am I afraid to make a commitment? How can I fully express my true self and still be loved, admired, and held in the embrace of a relationship? For example, in a TV commercial advertising a new car, a married couple sleeps side by side while Mr. Sandman sprinkles dream dust on them. The woman dreams of being swept away by a romance novel-type long-haired hunk on a white horse, riding through a field of flowers. Eventually the man breaks through the racetrack barrier into the field where his wife, the hunk, and the white horse are galloping. Upon seeing her husband, the wife dismounts the horse, leaves the stallion and his horse in the dust, and joins her husband, the hero, in the passenger seat of their new car. This combined dream ends with the sexually charged, happy couple driving into the sunset together. Check out this video and let me know if you relate to this if it gives you hope or gives you dream envy. *How to Interpret Your Sleeping Dreams to Make Your Waking Dreams Come True* by Kelly Sullivan Walden In the magical realm of dreams you can learn a topic of fascination, study at the feet of a master, converse with a departed loved one, find an answer to a perplexing question or, explore the larger story of your life. The first and second editions are out of print, but the third edition is available. Caeli appears as the Queen of Swords, due to her clarity of vision. It acts as a tool to light the way towards harmony with your purpose. I think that this is very well put. There are two extra cards with the deck: The front cover of the box carries an image of the Emperor, with images of the following cards on the back cover: A pearl is created when an oyster deposits layers of luminous nacre around a grain of sand to protect itself from the irritation of the foreign material. Our life trials, losses, and disappointments are our grains of sand. Through layers of love for ourselves, others, and the Divine, we create our own string of pearls. The cards are presented without scans, with a discussion of the cards, followed by commentary on the symbols chosen for the card. For example, on the Fool lists the following symbols: For Pearl, the commentary is: Trusting my instincts, I move with the flow of life. Symbols for the suit of Wands are: Symbols for the suit of Cups are: Symbols for the suit of Swords are: Symbols for the suit of Pentacles are: Tiger Lily, compass, black bird, seeds, peony, and strawberry. Each Minor Arcana card is defined by keywords. From the book for the Ace of Cups: Emotional and physical well-being. Your heart blossoms in its newfound freedom. Each moment refreshes the spirit. Beauty and goodness overflow. You recognize the privilege of being alive and human. Sip the nectar of the Divine. In the center of the card is a spiral with a white dot at the center. The background behind the spiral is wavy lines representing various colors in the color spectrum. The symbols used on the back of the cards are: There is a wide spectrum of colors used in this deck, but they are somewhat muted. The associations in the cards are to the Runes, the Triple Goddess Mysteries, and the language of plants and flowers. This deck would do well for someone who likes art decks, or for someone who is interested in working with non-traditional symbols. I would not recommend this as a deck for those learning the Tarot. She has had articles appear in the and Llewellyn Tarot Reader. Nature is everywhere in the cards. The artist, Roxi Sim, was strongly influenced by time in the Caribbean, and consequently the deck has a tropical, warm feel, lush with greenery and virtually fragrant with frangipani blossom. But these cards are not just pretty pictures. Roxi used her own art training and experience to create her own visual language; a unified language of symbolism in the tarot cards and which is explained in depth in the companion book. She also painted these images during a dark and difficult time in her own life, yet created an incredibly light-hearted, joyful and alive tarot deck. Several cards gave me a new perspective or interesting take on the usual interpretation. The Empress is breast-feeding a baby and has her eyes closed, which suggest to me a turning inward, a focus on instinctual, nurturing acts. In the Chariot, the charioteer has the reins pulled tight: In the Two of Wands, a man stands between two path markers and paths; he is literally at a crossroads. The Five of Wands leans towards an interpretation of cooperation and teamwork, rather than competition. In the Two of Pentacles, the figure is juggling and also attempting to stay upright successfully on a tilting seesaw. In the Six of Pentacles, a man stands on four pentacles, with two in his hands, showing that his finances are under control but also enough to give. The Pearls of Wisdom Tarot deck that I reviewed is the second edition. The card meanings were written by Caeli Fullbrite, who spent time with each painting to uncover its secrets. Now for the physical details. The deck has the standard structure of 78 cards and suits of Swords, Cups, Pentacles and Wands. The cards are sizeable at The Pearls of Wisdom Tarot images are deliberately larger-than-life, complex and three-dimensional, and offer something new to look at each time a card is drawn. Kate Hill is the owner, founder and editor of Aeclectic Tarot , and has reviewed more than decks over the years.

Chapter 8 : About The Summit Lighthouse | Teachings of the Ascended Masters

So, I created the Goddess Queen Pearls of Wisdom Journal. It's a great place for a woman to find her pearls of wisdom. It's a great place for a woman to find her pearls of wisdom. I find in journaling that if we write long enough we will write our way through to the voice of our Goddess Queen.

Hail Hail to thee Tara, Amen! Buddhists often repeat mantras times. In Buddhism and Hinduism the number is considered sacred. A mala prayer bead or rosary usually has beads used for keeping count of the repetitions of the mantra. For mantra or prayer to be powerful it must be consecrated by the sacred fire of the heart as well as by all the chakras. Chakras are centers of light and energy that are located along the spinal column. They are "gateways" to the "spiritual self. As you capture the mantra in your heart, your heart sings the mantra back to you and the mantra itself sings to you so that you hear from your innermost being the pure voice of your soul reciting that mantra. This is in no way autohypnosis. This is the power of God within you. And by accepting that power, you authorize it to enter your world through your recitation of the mantra. The violet flame is the seventh-ray aspect of the Holy Spirit and contains the God qualities of mercy, forgiveness and compassion. It is called the flame of transmutation and freedom as it can transmute the cause, effect, record and memory of negative karma. Images of Tara Virtually all images of Tara are exquisite. She represents "Transcendent Wisdom. In a charming portrayal of White Tara, this uncomplicated, small painting presents her as a figure of utmost purity, guileless simplicity, and calm repose. A fully opened blossom represents enlightenment and spiritual perfection. Some Hindu and Buddhists deities are described as being born from a lotus and they are often depicted in art either standing or sitting on a lotus throne. This signifies their divine birth and indicates their high spiritual status. From The Masters and Their Retreats we learn: The principle symbol of White Tara is the fully-opened lotus, representing the opening of the petals of the chakras. Statues of the White Goddess often show the richness of her raiment. Her crown and earrings symbolize the manifest expression of the abundant life of the Buddha and the Christ. In Tantric Buddhism, the moon symbolizes wisdom and in art and literature Buddhists use the moon to symbolize the true mind of the Buddha. The Ascended Masters teach the necessity of gaining mastery over the moon energies, the emotions energies-in-motion , and the emotional or water body. The emotional body is associated with the astral plane and lunar energies. Tara guides us on how to correctly walk the spiritual path and balance the energies of the emotional body so that we eventually become the beautiful lotus that grows out of the surface of the water. This wisdom form of Tara indicates not only her omnipresence, but also her high level of Buddhist and Christic attainment. Green Tara is usually depicted standing or sitting with her left leg bent, and her other leg in a relaxed posture of royal ease. She holds the stem of a blue lotus utpala in each hand. A popular thangka painting shows a peaceful Green Tara sitting in the center surrounded by a thousand and eight smaller Taras symbolizing the thousands of ways in which she manifests to help those in need. Various images of Tara are for our meditation and are symbolically significant for our own transformation from the lower carnal self to the Higher spiritual Self. We should take the flame from our heart and place it in the statue or painting and bring it to life. When we lower the image of the goddess to one embodying crass human behaviors we are no longer honoring the Divine Mother in Her highest manifestation. They are manifestations of the Divine Mother. These personifications of the feminine are not, at their core, goddesses to be worshipped. They are embodiments of the feminine attributes of God who teach us by example how we can realize our own feminine potential. We all have a feminine side. It is sensitive, intuitive, creative. It is the side of us that develops and maintains relationships. It is nourishing, patient and joyful. The healthy feminine is not distant or abandoning. Neither is it possessive or smothering. Blofeld explains this principle saying: Some devotees, if their way of life is sufficiently stainless, are bold enough to retain Tara within themselves as they go about the business of the day the harmless business of monks or recluses free from most occasions of error. With the passing of years, they become so closely identified with her that they noticeably take on some of her characteristics; perhaps even the facial contours undergo a change so that, as is the case with many saintly old lamas among Tibetans, they cease to be either distinctively male or female. Radiant as the eternal snows in all their glory, She sits on a white lotus and a

silvery moon Indicating fully developed compassion and knowledge. Green Tara of the emerald ray of healing! He embodies the "wisdom of perfected action" which is the antidote to the poisons of envy and jealousy. This antidote transmutes the energy of these poisons into the "positive energy of all-accomplishing wisdom. Called the Goddess of Action, Green Tara is emerald-colored. She is associated with the Fifth Ray of healing, also know as the emerald or green ray. Prophet teaches this is the same ray that Mother Mary works on. This is the ray of precipitation, healing, science and music. This is the ray of Truth. Green Tara is very powerful and is known for her ability to deal with evil forces and removing all obstructions and obstacles. Like White Tara, she also saves beings in dangerous situations. Most images show her ready to spring into action at a moments notice. We can call to her when facing the eight great dangers or fears and she will instantly appear. The enlightenment activities associated with Green Tara reflect her dynamic nature in the action karma clan. This karma is different from the "ego-bound karma" caused by cyclic circumstances and is associated with the "karma-freeing Wisdom" Amoghasiddhi bestows. Known as the "Swift Liberator" she helps us in many ways such as: Just as Jesus the Christ was tempted in the wilderness by the Devil, so Mara tempted Gautama the Buddha when he sat under the Bo tree prior to his enlightenment. Green Tara gives us the courage to face and conquer our demons and our fears. She bestows the fearlessness flame upon us to separate the real from the unreal, to accept the truth, and to pass our initiations from on high. According to the Masters, the fearlessness flame is white tinged with emerald. Green Tara guides us on the path to becoming a Bodhisattva and gives us the courage and the wisdom to embody fearless compassion for all. Fearless compassion is a key virtue of the Bodhisattva. Goddess Tara After taking her vow to save sentient beings in the body of a female, Tara spent another round of millions and millions of years in her role as bohisattva and, as the result of her attainment and saving graces, she earned the name of "Tara, the Savioress. For true healing to occur, this sacred fire must be raised along the altar of the spine through each of the chakras. The safest way to do this is through a path of prayer and devotion. For any transformation to be possible, an energy is needed to bring it about. For the transformation of consciousness a special and powerful energy is needed. Prophet explains, "Wisdom and compassion form the yin and yang aspects of the bodhisattva path. Through the white light of the Mother we begin to transcend and merge with our Higher Self. We develop the love, compassion and kindness that are the hallmarks of the Aquarian Age. As an "archangel and archetype deity bodhisattva" 24 Tara is instrumental in guiding us along the sacred path to enlightenment. Her transforming power delivers us to the heart of the Buddha and the Mother. Or Hail to Thee, Thou liberator from samsara, the liberator from the eight fears, the liberator from disease! Samsara is repeated cycles of birth, misery and death caused by karma. Many Buddhists celebrate the 8th of each month as Tara Day. Mantras and prayers are given to the beloved Holy Mother for oneself and the entire planet. Potalaka Tara resides with Avalokitesvara in their spiritual paradise located in the south of India atop the sacred mountain of Potalaka. This cosmic buddhaverse is in the etheric realm and is made of brilliant radiant light. Its mountain peaks glisten with lapis lazuli, amethyst, jade and other shimmering jewels. Surrounded by sweet smelling trees, beautiful flower gardens and flowing turquoise waterfalls, it is truly a magical place. Buddhas and bodhisattvas from all the heavenly worlds, along with laypersons, saints and sages frequent their "divine palaces" whenever these blessed ones hold court. Sitting on their white lotus thrones, their bodies radiate an intense golden light capable of illuminating the vast billion-world universe as they release their sacred teachings. While many attempt to find Potalaka, only the most pure of heart succeed. Let me not beg for the stilling of my pain but for the heart to conquer it. Let me not crave in anxious fear to be saved but hope for patience to win my freedom. Homage to the holy and noble Goddess Tara! Rhie and Robert A. Chapter 9 : Unique Gift for Goddesses this Holiday Season. | Splash Magazines | Los Angeles

Like pearls, the goddess of love came from the sea. Due to their shape, pearls have another watery association. Some stories say white pearls are tears shed by the gods.

I have four sisters that I love with all my heart. Growing up, my sister Shannon and I not only shared a bedroom, but we often shared dreams. The first dream I recall included me being chased by a witch around the turrets of a scary castle. My first love was Elvis I literally dreamed about marrying him when I was five years old The first poem I ever memorized and recited was in 3rd grade, and it went like this: The optimist sees the doughnut, the pessimist sees the hole. When I was thirteen I used to wear a comb in my back pocket of my skin tight Chemendefers that said, "If you can read this you are too close. To this day I have "kitchen issues". In high school I was a cheerleader and was voted "Most Spirited" by my senior class To this day, when I get inspired by someone or something, my inner cheerleader comes takes over My first college semester was in Seville, Spain I still speak and understand Spanish to this day with a slight lithp. I taught English in Japan I was a back up dancer for Stacy Q remember "2 of Hearts"? Throughout my 20s I was an actress I got married to my beloved, Dana, in our backyard meadow in Topanga, CA, surrounded by a bevy of Goddesses I had a near-death experience I went to the other side How to get the most from your D. For my 20th high school reunion I was named the person with the "Most Unusual Career. Along those lines, after being asked repeatedly how I do what I do for a living, I decided to lay it out for people, and pay it forward to those who are interested in following my very bizarre footprints. In these precarious financial times, people are looking for out of the box ways to earn a living in a way that honors their soul
