The Birds , Daphne Du Maurier Dame Daphne Du Maurier is well known for having taken inspiration for some of her most celebrated works from her adopted home county of Cornwall in the far southwest of England. Jamaica Inn was inspired by an overnight stay at the real-life Jamaica Inn, an isolated 18th century pub on Bodmin Moor, in And the imposing Manderley estate in Rebecca was at least partly based on Menabilly, a grand country house that Du Maurier herself moved into in It was while at Menabilly that she saw a flock of seagulls following a plow at a nearby farm and was struck by a simple yet unnerving thought -- what would happen if the birds attacked? His military service affected him greatly -- he became an angst-ridden chronic nail-biter, with a habit for screaming in his sleep -- and it took him another eight years to begin dealing with his experiences in writing. The first time he saw the chaplain, Someone [he had yet to name Captain Yossarian] fell madly in love with him. While in prison, Lacenaire had written essays and poems, met with journalists and researchers, given interviews, speeches and press conferences, volunteered for psychological studies, and even offered to have a life mask made of his face, all on an apparent quest to become an icon of social injustice and guarantee his notoriety endured long after his death. After initial reservations, year-old Mary more than rose to the challenge by penning what is now considered masterpiece of gothic horror, inspired by a single terrifying image that popped into her mind as she lay in bed. The pair quickly became friends and the following year Doyle agreed to visit Robinson at his home in Devon, southwest England, with an eye to collaborating on a new novel. Robinson took Doyle up onto Dartmoor, a vast ancient moorland and now a National Park , and regaled him with an old folktale about a notorious local squire named Richard Cabell who had apparently sold his soul to the Devil -- when he died in , local legend claims a monstrous pack of jet black hounds descended from the moors to escort his soul into Hell. Born in , Moule earned a place at Oxford University in , but failed to receive his degree. Moving to Cambridge University three years later, it took him another 14 years to finally complete his studies, during which time he battled alcoholism and severe depression until finally, in September , he committed suicide by cutting his own throat as he lay in bed. He was just 41 years old. Louisa herself was the strong-willed protagonist Jo; her elder sister Anna was Meg; her youngest sister May was Amy; and her middle sister Elizabeth, who died at the age of 23, was Beth. The setting and the sisters may have been the alike, but the events and circumstances around them were not: Middlemarch , George Eliot In January , George Eliot wrote a list of tasks in her journal that she wanted to complete in the coming year, one of which was "a novel called Middlemarch. By all accounts Eliot did not recommence writing until more than a year later, when, in November , she began an entirely new work entitled Miss Brooke. The Acushnet was far from his only inspiration, however, as Melville was doubtless also influenced by the true story of a whaling ship named the Essex that was attacked and sunk by a sperm whale in the central Pacific in The Strange Case of Dr Jekyll and Mr Hyde , Robert Louis Stevenson Robert Louis Stevenson had already written a play about Deacon Brodie -- an 18th century Edinburgh city councillor who led a double life as a burglar -- when in he had a dream about a mild-mannered man transforming into a monster. His wife Fanny later recalled how, "In the small hours of one morning I was awakened by cries of horror from Louis. Thinking he had had a nightmare, I awakened him. I was dreaming a fine bogey-tale. The Thirty-Nine Steps , John Buchan John Buchan was recovering from a stomach ulcer at a nursing home in Broadstairs on the far southeast coast of England he began work on what he referred to as his first "shocker" in Buchan reportedly took the title of the novel from a wooden staircase that once ran from the clifftops at Broadstairs down to the beach, although there are several conflicting accounts: Jerome In the mid s, Jerome K Jerome came up with the idea of writing a straightforward travel guide to the River Thames, including descriptions of several historical sites along its course. To Kill A Mockingbird , Harper Lee Harper Lee has long denied claims that To Kill A Mockingbird is an autobiographical work, but rather a reflection of an author simply writing about what he or she knows and has experienced first hand. Moreover, Lee, like

Scout, was a tomboy in her youth, and her eldest brother Edwin, like Jem, was four years her senior. She wrote the book in the years following the death of her mother in , and in the story Scout too has lost her mother. And even the character of Dill, who lives next door to the Finch family during the summer, is modelled on her childhood friend Truman Capote, who would spend the summer with his aunt in Alabama while his mother visited New York.

A closer investigation of the greatest love stories in history reveals that many of the most famous lovers met a tragic end. They did, however, show us that true love is stronger than anything else in the world. And it is the love that they had we are all hoping to find someday. Of course, with a happier ending. The story begins with the Trojan prince Paris being chosen to decide which of three goddesses – Hera, Athena and Aphrodite – is the fairest. He chose Aphrodite because in return she promised him the most beautiful woman in the world. And the most beautiful woman was Helen of Sparta who, however, was married to King Menelaus. Paris was mortally wounded during the fall of Troy, while Helen returned to her husband in Sparta. Orpheus and Eurydice The ancient Greek mythological hero Orpheus is best known for his beautiful music which charmed everyone, even the stones and wild beasts. But he is also known for his deep love for his wife Eurydice. When she died from a snake bite, Orpheus decided to go to the Underworld and bring her back. With his music, he charmed the gods of the Hades and they allowed him to take Eurydice back with him. But he was told he must not look back until they escape the Underworld. When they reached the portals of Hades, Orpheus turned back to see if Eurydice is following him and she immediately disappeared back in the world of the dead. Both committed suicide after they were defeated by the Romans under Octavian the later Augustus although Cleopatra hesitated. Cleopatra and Mark Antony are said to be buried together but the location of their tomb remains a mystery. It is thought to be inspired by an older Celtic legend. There are several versions of the story about the adulterous lovers but they all more or less follow the same outline. Iseult marries King Mark but the love potion makes the lovers unable to resist each other. They manage to escape death but Iseult is forced to return to Mark. Tristan leaves Cornwall and marries another woman named Iseult. But when he is mortally wounded by a poison lance, he calls for his only true love. The story ends with Tristan dying of despair, convinced that Iseult does not want to come to him, while Iseult dies of grief after finding her lover dead. It is thought to have been inspired or influenced by that of Tristan and Iseult. Just like the latter, Lancelot and Guinevere are adulterous lovers. Guinevere is married to King Arthur who, just like King Mark does not suspect anything at first. He eventually finds out about his wife being unfaithful to him with one of his most loyal knights. After several fierce battles between the two men, Guinevere returns to King Arthur but the destruction of the Round Table enables Mordred to challenge Arthur. The legendary king kills his rival but he is mortally wounded. Lancelot enters a hermitage and eventually becomes a priest. Both spend the rest of their lives in repentance. Romeo and Juliet Probably the most famous love story of all was written by the celebrated English poet and playwright William Shakespeare sometime in the s. The latter is believed to be an English translation of a novella of Italian writer Matteo Bandello. But even his Romeo and Juliet are not original. The story reveals a major influence of ancient tragic love stories, most notably of the Roman story of Pyramus and Thisbe whose families despise each other and prevent the lovers to be together. Just like Pyramus kills himself, falsely believing that Thisbe is dead, Romeo also commits suicide for mistakenly believing that Juliet is dead. Thisbe follows her lover in death upon discovering his dead body which is exactly what Juliet does when she finds Romeo dead. Both Thisbe and Juliet stab themselves but Romeo, unlike Pyreus who stabs himself with his sword, drinks a poison. Shah Jahan and Mumtaz Mahal Their names may largely be unfamiliar to most people in the West but their love produced a monument that is famous all over the world – Taj Mahal. Shah Jahan and Mumtaz Mahal were Mughal Royal couple who shared a loving marriage until Mumtaz died while giving birth to their 14th child. Shortly after completing Taj Mahal, Shah got ill and was overthrown by his eldest son. He spent the rest of his life in house arrest and was buried next to his wife. The legend has it that he planned to build an exact copy of Taj Mahal in black marble on the opposite bank of the river Yamuna but the works never started. Napoleon and Josephine The relationship between Napoleon and Josephine, a six years older widow with two children was turbulent from the very start. Only

two days after their wedding day, Napoleon left on a military campaign in Italy. Josephine who stayed behind in Paris soon started an affair with lieutenant Hippolyte Charles. And when it became clear that Josephine is unable to have children, Napoleon decided to divorce her. He thereafter married Marie-Louise of Austria who gave birth to the long-awaited heir. The relationship between the young King and 12 years older widow and lady-in-waiting to his mother caused an outrage in the country. But nothing could stop Alexander from marrying Draga and making her queen, not even his mother who was banished from the country for opposing the marriage. Eventually, the opposition slightly subsided but the situation worsened rapidly for the royal couple after the false pregnancy scandal. In 1807, a group of military officers invaded the Royal Palace and assassinated the couple. Bonnie and Clyde Bonnie and Clyde, lovers and criminals who traveled the Central United States during the Great Depression were not considered as romantic back then as they are today. Their gang was responsible for at least nine police officer and several civilian deaths. It is unsure how the couple met but it is thought that it was love at a first sight. When Bonnie and Clyde met probably in 1933, the latter already had a criminal record but that obviously did not bother Bonnie. She decided to join him in his criminal undertakings and stayed with him until the very end. They were ambushed by the police in Bienville Parish, Louisiana in 1934 and killed.
