'Joanna' is the third volume in Robert Gellis's beloved 'The Roselynde Chronicles.' The series was recently released in ebook format so I am enjoying the chance to revisit some old favorites.

Hobbies and other interests: Home and office—Lafayette, IN. A Delicate Balance, Leisure Books, Dubbed "one of the pioneers of the romance genre," by Jean Mason in Romance Reader, Roberta Gellis is a well-respected author of historical romances that take readers back to the French Revolution, the War of the Roses, twelfth-century England, and even to ancient Greece. Praised for what Mason described as "strong characterizations, attention to historical detail, and intriguing plots," Gellis has also contributed to a number of other genres, including science fiction —under the pseudonym Max Daniels—historical fiction, and mythological fantasy. It would be the first of many books in which Gellis tells a captivating story imbued with a strong sense of the historical epoch. Her lengthy research has allowed her to fill her novels with a wealth of details as she weaves her fiction with factual events, real people, and the sights and sounds of the times. Although some reviewers have criticized her heroines for being too modern in their self-assured approach to the male-dominated world around them, Gellis explained to Mason: Nicolaa de la Hay is mentioned and Hadwissa — Queen Eleanor herself. But in addition there were hundreds and hundreds of women whose men were always away at war or conducting legal cases. From the first page of each of these novels, according to Mason, "Gellis makes it clear that she is dealing with extraordinary, rather than average, women. After a break in the series that lasted over twenty years, Gellis returned to this series with Desiree, which Romance Readers critic Leslie Dunlap declared "a worthy addition. Her only hope of escaping the blame is to discover the killer for herself. In a review in Publishers Weekly, a contributor attested: Booklist contributor Margaret Flanagan called this novel a "gripping historical whodunit. She has collaborated with Mercedes Lackey to write a number of fantasies set in the past. Jackie Cassada, writing in the Library Journal noted that the authors "demonstrate their flair for period fantasy and romance. In an interview on the Writers Space Web site, the author referred to this novel as a "short, light, humorous I hope space-opera book. James Press Detroit, MI, Johnston, review of Alinor, p.
