Salento is one of the newest hotspots on the gringo trail. But for years only visiting Colombians, locals, and the most daring explorers and birdwatchers got to experience its unparalleled beauty. I had been one of them. I suppose it was a life typical of any child growing up abroad. My sisters and I took the private bus to our private international school in our starchy uniforms: In , I took a trip with him into guerrilla-controlled territoryâ€”with permission from the commanders, of courseâ€”to visit a remote valley in the Eje Cafetero. Fifteen years later, as I return to this same wax palm-dotted region with a group of gringos, my memories of that trip with my father make the homecoming awkward. I fear this influx of tourists will ruin what Colombia is and what Colombia means to me. Colombia is a place I feel proud to have explored before the hostels, the backpackers, and Facebook. It is a place I am still defending from people and there are fewer and fewer of them who only equate it with violence. It was my Narnia. I have other memories, too, that I think paint a fair picture of what Colombia used to be: How my sister and I ate breakfast under the desiccated head of a goat in a ramshackle hut, the only lodging outside Cocuy National Park. How we were one of a few families vacationing on a Caribbean beach with a wicked undertow outside Santa Marta. How a guy my father and I played soccer with was kidnapped by rebels, marched through the jungle for two months, and could never eat rice and beans again. Every few minutes we stop to peer into the forest with binoculars and long-lensed digital cameras. That morning, it had been his idea to put out worms to entice the elusive antpitta out from hiding. The birders were thrilled. Uribe says he welcomes the tourists: On our way out of the reserve, we spot a migratory Tennessee warbler in a small tree. I think about , when three bird-watchers were kidnapped by guerrillas. That Colombia is mostly gone now. Years of beefing up the military and patrolling the highways have made the country safer. The bird-watchers will keep coming because today Colombia is touted as a must-visit by travel magazines. I welcome the gringos. I accept that Colombian ruins may become the next Machu Picchu and that its unspoiled Caribbean beaches may become the new Cancun. It was once my adventure, a place so remote and foreign that it felt like my own. Now the world has been invited. Post navigation Aleszu Bajak is a science journalist who has just returned from a year reporting from South America. He is editor of LatinAmericanScience.
