I recently reviewed the ESV Clarion Calfskin so you will see similar sentiments in this review , but there are some differences that are worth noting. The single column layout displayed in this edition stands alone. There is no competition outside of other Clarions of course. It is truly one of the best reading experiences on the market. The Calf Split version was recommended to me by several Bible aficionados and I am glad that I listenedâ€”this edition lays much nicer than the Goatskin version. The Calf Split and Calfskin versions lay and read easier, because the text does not creep into the gutter as much as the Goatskin version. Regarding the cover, the Calf Split is the stiffest of the three Clarion covers offered by Cambridge: Goatskin, Calfskin, Calf split. This makes it much easier to hold and read. The durability of this Bible seems far superior to many other Bibles on the market without the Goatskin price tag. When I lay the Calf Split on a table or hold it in my hand, it is a complete joy to read. If you want a single column Bible that has cross references, I would say the Clarion is the Bible for you. Readability Yes, yes and yes. The Clarion shines in readability with its 9pt size font single column layout. The pages are thinner than I prefer, but Cambridge utilizes line matching to minimize any ghosting of the text. The cross references are in the outer margin which add to readabilityâ€”some reference Bibles put the cross references in the gutter, forcing your eyes to jump two sets of references before getting back to the text. All in all, you cannot go wrong with choosing the Clarion as a highly readable Bible. Recommended Uses The Clarion begs to be brought with you everywhere. It is highly portable and readable. It offers cross references, maps and decent margins to write in to encourage inductive study. I have also heard of some pastors preaching out of this Bibleâ€”I however, would recommend a double column format for preaching and teaching. Whether you are in a hammock or your office, this Bible could go anywhere and do anything for you.
