Contact Author Optical illusions and eye tricks The word illusion is derived from the Latin, illudo meaning to mock or ridicule. This collection of images includes some classic tricks of the eye and optical illusions with links to the best galleries and illusion collections on the internet. Keep yourself and other people entertained, these images are viewable on your PC, mobile phone or tablet device. Here are ten of the best optical illusions on the Internet, plus some more! Secret images, disappearing items, expanding and fading images, there is something for everyone. Remember, seeing is believing if you believe what you see. There is even appearance from Jesus and Barack Obama, if you look in the right direction. You can also see the top Siri answers here as well and link to the most hilarious and entertaining sites out there. Mighty Optical Illusions gets the credit for the introductory image, a face in the crowd. Dots and colours play a big part in optical illusions and of course word tricks like the picture opposite are all part of the fun. Can you read what the writing says? Can you say the font colour and not the word in the illusion below? Do you prefer the Jesus illusion or the Obama illusion, let us know below. If you like this, take a look at our Embarrassing Names lens to see some of the funniest, real life names. This is my favourite optical illusion because it is so weird! What you need to do is stare at the four dots in the centre of the image for about thirty seconds. Immediately after, stare at a plain wall or blank sheet of paper or look towards a bright light. What do you see? You should see the image of Jesus, similar to the shroud of Turin. Turning Is this a still image? Or is it turning? How does this image appear to you? It is a regular JPG image but it appears to be constantly turning, even if you only see it out of the corner of your eye. How cool is that? Can you see the image above turning? Yes, it really looks like it is turning. No, I cannot see it turning at all.
