Images reproduced by FamilySearch. Third Census of the United States, NARA microfilm publication M, 71 rolls. Bureau of the Census, Record Group National Archives, Washington, D. In addition, the names of those listed on the population schedule are linked to the actual images of the Federal Census, copied from the National Archives and Records Administration microfilm, M, 71 rolls. If you do not initially find the name on the page that you are linked to, try a few pages forward or backward, as sometimes different pages had the same page number. About the Census: The official enumeration day of the census was 6 August All questions asked were supposed to refer to that date. The enumeration was to be completed within nine months, but the due date was extended by law to ten months. Schedules exist for 17 states and District of Columbia, Georgia territory, Mississippi territory, Louisiana territory, Orleans, Michigan territory, and Illinois territory. Partial losses included Illinois Territory, which had only two counties Randolph is extant, St. Some of the schedules for these states have been re-created using tax lists and other records. Enumerators of the census were asked to include the following categories in the census: The categories allowed Congress to determine persons residing in the United States for collection of taxes and the appropriation of seats in the House of Representatives. Most entries are arranged in the order of visitation, but some have been rearranged to appear in alphabetical order by initial letter of the surname. Manufacturing schedules are scattered among the population schedules. Why Use Census Records: Few, if any, records reveal as many details about individuals and families as do the U. The population schedules are successive "snapshots" of Americans that depict where and how they were living at particular periods in the past. Because of this, the census is often the best starting point for genealogical research after home sources have been exhausted. The United States was the first country to call for a regularly held census. The Constitution required that a census of all "Persons The first nine censuses from were organized under the United States Federal Court system. Each district was assigned a U. Governors were responsible for enumeration in territories. Taken from Chapter 5: Research in Census Records, The Source: William Dollarhide, The Census Book: This census gives the name of the head of the household and tallies other family members by age range, number of slaves owned, and number of all other free persons.

In addition, the names of those listed on the population schedule are linked to the actual images of the Federal Census, copied from the National Archives and Records Administration microfilm, M33, rolls. If you do not initially find the name on the page that you are linked to, try a few pages forward or backward, as sometimes different pages had the same page number. Enumerators of the census were asked to include the following categories in the census: Additionally, the census for the first time asked the number of free white males 16 to 18; number of persons to be naturalized; number engaged in agriculture, commercial, or manufacture; number of "colored" persons sometimes in age categories ; and number of other persons except Indians. The categories allowed Congress to determine persons residing in the United States for collection of taxes and the appropriation of seats in the House of Representatives. Most entries are arranged in the order of visitation, but some have been rearranged to appear in alphabetical order by initial letter of the surname. Manufacturing schedules are scattered among the population schedules. Few, if any, records reveal as many details about individuals and families as do the U. The population schedules are successive "snapshots" of Americans that depict where and how they were living at particular periods in the past. Because of this, the census is often the best starting point for genealogical research after home sources have been exhausted. The United States was the first country to call for a regularly held census. The Constitution required that a census of all "Persons The first nine censuses from were organized under the United States Federal Court system. Each district was assigned a U. Governors were responsible for enumeration in territories. The official enumeration day of the census was 7 August All questions asked were supposed to refer to that date. The count was due within six months, but the due date was extended by law to allow completion within thirteen months. By , there were a total of twenty-three states in the Union. Partial losses included half the counties in Alabama, and roughly 20 eastern Tennessee counties supervised by the Federal Court District out of Knoxville. Some of the schedules for these states have been re-created using tax lists and other records. Taken from Chapter 5: Research in Census Records, The Source: William Dollarhide, The Census Book: This census gives the name of the head of the household and tallies other family members by age range, slaves owned, free colored persons, occupational information, and foreigners not naturalized.

## Chapter 3 : The (3rd) Census Information | River Campus Libraries

*Population schedules of the third census of the United States, , Virginia by United States. Bureau of the Census, edition, microform in English.*

In addition, the names of those listed on the population schedule are linked to the actual images of the Federal Census, copied from the National Archives and Records Administration microfilm, M, 71 rolls. However, the original information from Ohio and some others states have been lost or destroyed. Inconsistency of Format There were no standard forms for the census in Therefore, the format varies as widely as the number of enumerators. Published census The census published a page volume. Information for the population was presented by counties and towns in northern states and in Ohio, Kentucky, and Georgia. New York was presented by counties only. Southern states were presented by county. The territories were presented by counties and towns. You can cross reference that information with tax lists and probate inventories in order to locate multiple members of the same slave family. You may also find that some of those family members are clearly listed by age in the census records. There are some scattered manufacturing schedules scattered among the census documents, which can give you further information. Interesting facts about the census James Madison is President during census. New York City is the largest US urban are with a population of 96, Age brackets are split into five groups. Only whites, number of slaves are recorded, and Indians that were not taxed were included. The censuses were public meaning they were posted publicly so those included on the census could, if they could read, view and catch omissions and errors. The censuses did not have pre printed forms for the census takers to record information. Each census taker was given sample copies and expected to copy his census return on whatever paper he could find and post it in two public places. The Louisiana Territory was renamed the Missouri Territory in The Territory of Louisiana is purchased from France for a cost of 15 million dollars in Historical events surrounding the US Census March 3, " Thomas Jefferson signs the act prohibiting the importation of slaves. February 2, " The strongest recorded earthquake in American history 8. The earthquake is so strong it temporarily reversed the course of the Mississippi river. June 18, " US officially declared war on Great Britain. This is the first time the United States declared war on another nation. The experience inspires him the write a poem that would later become the lyrics to the Star Spangled Banner. August 24, " British soldiers occupy Washington D. April 4, " Congress officially adopts the thirteen stars and stripes design for the U. States Covered in the Census Census Map The Census recorded information from 17 states and six territories. What was lost from the U. Clair is lost but Randolph records exist , Ohio Territory where everything is lost except for Washington County. Although the original data is lost, there are ongoing efforts to reproduce the Census for the missing states by using local county records such as tax lists, oaths of allegiance, land entities, militia lists, petitions, road records, and other sources. These types of records are also known as census substitutes.
