

## Chapter 1 : Fastest Classic Muscle Cars: Top 10 List of Muscle Cars from the Past

*About Us Quarter Mile Muscle Inc. specializing in Classic Car Restorations, here in North Carolina! Here we perform Automotive Restorations, Custom Painting and installing Aftermarket Performance Parts on all types of vehicles.*

More Articles March 30, The fastest muscle cars of today are safer and more powerful than those used by street racers in the past Dodge Power and adrenaline: So instead of resting on laurels and sticking with straight-line speed, automakers have had to reinvent some of their most iconic nameplates, all while making sure they stay true to their reputation. Needless to say, the results have been pretty spectacular. But thanks to huge advances in engineering, these cars are now safer, more reliable, and most importantly, more powerful than ever before. There may be some omissions, but we limited the list to cars that we could find precise and reliable test data for. In the event that there was a tie and there were a few , we used zero to 60 times to settle the argument. So, without further ado, here are the 13 fastest modern muscle cars of the s. Zero to 60 comes in 5. A whopping ponies and pound-feet of torque. Sure, it was an assassin there with a Zero to 60 comes in four seconds flat, and it can run the quarter mile in And from there, the Camaro line only gets more impressive. With the Dodge Charger SRT , the tough-looking four door gets horsepower and pound-feet of torque to play with , thanks to its 6. Zero to 60 comes in 4. You can even get a cool retro shaker hood, complete with air intake sticking out of it. If you need four doors, Dodge offers the in the Charger, too. In that car, zero to 60 comes in at 3. Boasting a supercharged 6. Top speed is miles per hour, and it can jet to 60 miles per hour in just 3. The current GT is a lithe, brutally fast track car; the old King Cobra was an old-school straight line missile. Tackling the quarter mile in The quarter-mile can also be done in a relative snap, as the Hellcat can get it done in The four door has the same horsepower and pound-feet of torque as its two-door brother, but thanks to better aerodynamics, the Charger is actually a little quicker to 60 from a standstill â€” 3.

### Chapter 2 : The Fastest Muscle Cars on the Market for the Model Year

*Classic Car Services. Here at Quarter Mile Muscle our Classic Car Services includes a Full Service Automotive Restoration shop. I hopped on Google and punched up performance car shops. Paging through search results I ran across an intriguing website presented by Mr. E-mailing back and forth over a week or so we arranged my visit. Quarter Mile Muscle Hummer Little of the passion for cars shows through to the outside of this steel structure though poised, radiator forward, outside the front door, sits a gigantic sculpture of American steel. Brilliantly coated in a rich PPG Blue Metallic Candy, beautifully finished and decked out, an H1 Hummer, complete with grille guards and push bars stands watch over the Quarter Mile Muscle headquarters. Should you question car passion contained within the Quarter Mile Muscle shop, this earth grinding piece of US engineering prowess slays any doubt. Look for quite an arrival among the mini vans and station wagons outside the local Target store. Bryan got his start when, as a collector, and working for another company, he constantly searched for shops to do restoration and custom work on cars under his charge. Often disappointed, Bryan decided to start his own shop. Period correct or modernized, I like doing it. If the customers love their car, I understand that. When a quality seeking project comes in, Bran makes sure it has his undivided attention. When I asked about the fastest car on which he worked, a very slight smile came across his face. The smile got bigger. I can get it. Seldom does one think of anything black as radiant but this sculpture exuded smoothness, power and glory. It bore nothing harsh, no sharp corners, no extreme edges, nothing. Bryan posed it for me. I was in the presence of true, beautiful art. Quarter Mile Muscle " C5 Corvette Shooting the car and asking a few final questions was a great way to end our discussion. In a world crowded with custom car shops, Bryan and his team give a great performance. See you at the track.

While the original pony cars offered horses or so, these days you can buy 10 different models that top horsepower and hit 60 miles per hour in less than 5. Indeed, you should consider the current stock from Detroit an embarrassment of riches. Here are the 10 fastest muscle cars heading to market for the model year. Performance times come from verified tests or automaker estimates and can vary by several tenths of a second, depending on the driver. Its quarter-mile run times of Under the control of the right driver, it will outrun other models on this list. Motor Trend testing got the same powertrain to just 60 mph in just over 4 seconds from a stop. The quarter-mile run lasted After adding power and tweaking both automatic and manual transmissions, the 5. Not tested For the model year , Ford mostly left the GT alone but brought out a new special edition: Using an enhanced version of the 5. This one can hit mph. Not tested Quarter mile: Dodge says the will get there in This model should arrive in dealerships by the first quarter of This model will maintain its obscene power quotient horsepower, pound-feet of torque while improving aerodynamics and adding downforce. These cars run on a supercharged 6. That massive force propels the Charger Hellcat yes, a four-door sedan to 60 miles per hour in 3. Motor Trend ran the quarter mile in this car in That powertrain produces horsepower and pound-feet of torque. It hits 60 mph from a stop in about 3. This car can blast to 60 mph in 3. Likewise, the Redeye is the fastest GT car in production with its quarter-mile time of Check out The Cheat Sheet on Facebook!

### Chapter 4 : Company Bankruptcy Information for Quarter Mile Muscle, Inc. bk

*Other manufacturers responded with their own pony cars and muscle cars, and for nearly 10 years, muscle cars ruled the drags. Quarter Mile Muscle covers the development and success of the muscle cars at the drags in all classes, from Super Stock to the early muscle car-based funny cars.*

Top 10 List There is nothing compared to hearing the roar of a Muscle Car zooming down a straightaway. These American made cars are high performance vehicles that were introduced as mid-sized two door coupes with engines having a lot of horsepower during the s. Classic American muscle cars listed here were available from the s through the s, these were some of the fastest during their time. L72 V8 engine with horsepower. Corvettes have been driven by men who are well known in the racing circuit. Recognizable names such as A. Plymouth negotiated with Warner Brothers the right to use the Road Runner character in naming this muscle car. The Barracuda participated in factory sponsored races, one of which was the Trans-Am Series. Chevrolet came up with the Chevelle in order to compete with the Ford Fairlane. Rex Gray , Creative Commons 6. The ZL1 with hp engine was initially intended for drag racing purposes. Each ZL1 engine took sixteen hours to build in a sanitized environment. These engines were used for both the Camaro and the Corvette. RussBowling , Creative Commons 7. Engine was a V6 engine with horsepower using a four speed transmission. Phillip Pessar , Creative Commons 8. Engine was a Chrysler Hemi, horsepower. Plymouth had also offered options for the color of the Roadrunner a customer might want. Buick introduced the cu in V8 engine with horsepower. This vehicle caused an uproar in the 80s when reports said that this GS Stage 1 of was faster than any Hemi car produced by Chrysler. Rex Gray , Creative Commons A cu in, horsepower engine used, less horsepower than previous model mentioned above. Body color of Corvettes varied, ten different colors if you wanted to get a Corvette, the least produced color was black with produced and British green with 4, produced. Matthew Murphy Chrysler made the fastest race cas back in the day. The caricature is attractive, your authored material stylish. This is what true muscle cars is rawrdinosaur Yo, rampage, pontiacs suck and dodges also. How about the Ram Air IV? Or the super duties?

Chapter 5 : Quarter-Mile Muscle! - Larry Davis - Google Books

*Classic Dodge Restoration in North Carolina by Quarter Mile Muscle Inc. This Classic Dodge Charger was updated by us here at QMM. It now has a Tremec Five speed transmission and new four.*

Citation is disfavored, but may be permitted in accordance with the provisions of Rule 30 e 3 of the North Carolina Rules of Appellate Procedure. Klass in Iredell County Superior Court. Heard in the Court of Appeals 19 September Roberts Law Firm, P. Quarter Mile Muscle, Inc. Opinion of the Court Repair Act. Defendants also contend that the trial court erred by denying their motion dismissing the claims against Klitz in his individual capacity. Plaintiff decided to have the Vehicle restored and discovered Quarter Mile through internet advertisements for restoration of vintage cars. Opinion of the Court after the car is delivered to [Quarter Mile] and will be ongoing during the restoration process. From 20 November until 30 August "the date on which Plaintiff regained possession of the Vehicle" Klitz and Plaintiff remained in email communication about the progress of the restoration. As part of the restoration process, Defendants were to replace the original engine with a more modern one. Klitz titled the Corvette in his name individually and informed Plaintiff of the purchase on 3 April Klitz, however, did not mention in his emails to Plaintiff that the Corvette was titled in his name. Opinion of the Court much work was yet to be done. Klitz informed Plaintiff that outstanding tasks included finishing the current metal and body work; priming, sanding, and painting the interior and exterior; painting and fabricating the chassis; rebuilding and installing the engine; installing steering and brakes; and wiring and upholstery; and finishing the glass, chrome, rims, tires, and audio system. On 16 August, Plaintiff went to Quarter Mile with her parents and other relatives to inspect the condition of the Vehicle and the progress of the restoration. Upon this inspection, Plaintiff decided to cease the restoration project. Klitz gave Plaintiff the title to the Corvette; however, at the time of trial Klitz had not yet signed it. On 21 April, Plaintiff filed a complaint in Iredell County Superior Court against Quarter Mile and Klitz, both individually and in his capacity as the owner of Quarter Mile, for breach of contract, unjust enrichment, violation of the North Carolina Motor Vehicle Repair Act, unfair and deceptive trade practices, and conversion. A jury trial commenced on 12 October During trial, Plaintiff presented expert testimony from three witnesses: Opinion of the Court auto restoration. Allen described the work done by Defendants as poor quality. He provided a report detailing the work and opined that Defendants billed Plaintiff for an inflated number of hours. Klitz testified on behalf of himself and Quarter Mile. He offered an explanation for taking title to the Corvette "ostensibly purchased on behalf of Plaintiff for parts" in his own name. Opinion of the Court The trial court gave the jurors, without objection, a verdict sheet, which provided: Did the defendants breach the contract with plaintiff? If you answered no, then move to issue 4. What amount of damages is plaintiff entitled to receive from the defendants? If no then stop. What amount of damages are the plaintiff entitled to receive from the defendants? Defendants gave timely notice of appeal. Defendants also argue that the evidence does not support the damages award for breach of contract or violation of the North Carolina Motor Vehicle Repair Act. Lastly, Defendants argue the evidence does not support the claims against Klitz in his individual capacity. Opinion of the Court improper jury instructions and verdict sheet, because Defendants did not object to the jury instructions or the verdict sheet at trial. Rule 10 a further states: A party may not make any portion of the jury charge or omission therefrom the basis of an issue presented on appeal unless the party objects thereto before the jury retires to consider its verdict, stating distinctly that to which objection is made and the grounds of the objection; provided that opportunity was given to the party to make the objection out of the hearing of the jury, and, on request of any party, out of the presence of the jury. Here, the trial court provided an opportunity for Defendants to object outside the presence of the jury, as illustrated by the following excerpt of the transcript: Let the record reflect the jurors have left the courtroom. Any request as to the charge from the plaintiff? Plaintiff is fine, your Honor. Opinion of the Court work on the Chieftain made it unsafe. You all want to take a look at the verdict sheet? The defense is fine, your Honor. Sufficiency of the Evidence 1. Opinion of the Court S. Here, the evidence, when viewed in the light most favorable to Plaintiff, supported the submission of both direct and consequential damages to the jury. Because the damage award did

not exceed the total amount of contract damages supported by the evidence, we need not address whether or to what extent damages are permitted under a violation of the North Carolina Motor Vehicle Repair Act. Generally, officers and directors of North Carolina corporations are not personally liable for the debts of their corporations. Defendants argue this evidence supports their contention that there was no evidence supporting the breach of contract claim against Klitz in his individual capacity. However, it is not for this Court to balance the evidence; rather, we are only able to determine whether a scintilla of evidence supports a breach of contract claim against Klitz in his individual capacity regardless of the evidence to the contrary. The relevant evidence at trial establishes that: This evidence would allow a reasonable trier of fact to find that Klitz entered into the Contract for his own personal benefit, thus precluding him from using the corporation as a shield against personal liability. Accordingly we affirm the judgment. Report per Rule 30 e.
