I figured based on the description, was Red Sonja in outer space, so she ended up having a visual cue from that. When Joe Orlando passed by and saw the character sketches he suggested that maybe her hair should be longer. That I took to the ninth degree and gave her the Mighty Mouse contrail. Please help improve it or discuss these issues on the talk page. Please help improve it by removing unnecessary details and making it more concise. This rivalry continued and intensified when the siblings were sent for warrior training with the Warlords of Okaara. She became a charter member of this team and remained a member for years, finding work as a professional model using the name Kory Anders. She has been married twice, both times to Tamaranean men: In between these, she nearly married Dick Grayson, but their wedding was interrupted by Raven who was evil at the time. In the Titans of Tomorrow storyline, Batwoman said that Starfire would have a wonderful future with Nightwing. However, during Infinite Crisis, an image from the Titans Tomorrow timeline shows a gravestone implied to belong to a deceased Dick Grayson. They arrived at the reset center of the universe and with the help of assorted heroes aided in the defeat of Alexander Luthor , who was attempting to recreate the multiverse and build a perfect Earth from it. She is reported missing at the end of the crisis. In the same issue, it was revealed that energy ripples caused by Alexander Luthor, Jr. A week and some time later, Starfire is seen eating an odd narcotic native fruit. Two days later, Devilance , a being whose presence Buddy had sensed earlier, appears to Starfire. A week, two days, and two nights later, Adam and Buddy go looking for her. Unfortunately, they find her caught in a large net, hanging from above. Just as Buddy realizes it is a trap, he and Adam get caught in a similar net, with Devilance staring at them. Three days and two nights later, Starfire awakens and works together with her comrades to distract Devilance. She pays Devilance back for capturing her by stealing his staff and striking him with it before catching up with Buddy and Adam. As the trio head back to the ship, hoping to use the staff as a power source, Devilance broods, bound by the same vines he had used to restrain his captives. At the end of week 16, the repairs on the ship are completed and the trio take off for Earth. Devilance later suddenly attacks the ship and takes back his lance. Just as Devilance is about to destroy the ship, he is torn apart by Lobo. Believing he is going to attack them next, Starfire convinces Lobo to help the trio by offering payment, but not before he rips her top off. She returns to the ship to explain the situation to her companions while Lobo hitches the ship to his space bike. They follow Lobo in his new stronghold in Sector , a sector of space mysteriously ravaged, and ruled by Lobo acting as religious man. To save him, and the inhabitants, from a swarm of strange creatures, Starfire is forced to use the Emerald Eye of Ekron, alerting Ekron himself. Starfire agrees to fight her, and she is brought as a prisoner of the galactic villainess by Lobo, in an attempt to foil her defences. The attempt succeeds, but Buddy is seemingly killed, and Lobo leaves. Starfire and Adam are left alone in space, their ship slowly breaking apart, still pursued by angry Lady Styx followers. Starfire is badly injured, and a blind Adam Strange, who is reliant on machinery which is no longer useful, cannot do anything to help her. Just as they are going to crash into a sun, however, Mogo and a rookie Green Lantern come to their rescue. Countdown to Adventure[edit] Main article: Despite the loss of her powers, Starfire demonstrates her combat abilities as she and Animal Man fight off crowds of people infected by the virus. They are later trapped in San Diego with the infectees where they are joined by the Teen Titans who are trying to break through a force field to get to the Healers ship. They are then interrupted by more victims of the Lady Styx virus. The team finds out that the sterilization is taking place in San Diego. Starfire uses her powers to heal the people, and is later seen leaving the Baker household for parts unknown. Starfire attempts to rid the disease but is soon tackled by Champ Hazard into the ground. Rann-Thanagar Holy War[edit] Main article:

Apparently the belief of Lady Styx still remained even after the virus has been eliminated. Their plan is to use a telepath to show the horror of Lady Styx. Meanwhile, her old Titan teammates had also been attacked by assorted demonic entities. This led to Starfire, Nightwing, Troia, Cyborg, Beast Boy, Raven, Kid Flash, and Red Arrow, to reassemble as a team, when they realized that the attacks are the result of a resurrected Trigon and his newly discovered three sons. While investigating, the Titans began to experience unexplained mood-shifts. The team was then approached by the Sons of Trigon. They battled the villainous prodigy, and drove them away. While Nightwing shows hints at wanting to renew their relationship, Starfire questions his commitment to the relationship and goes so far as to ask Nightwing whether or not he truly still loves her. Nightwing to his own surprise and reluctance admits he does not, leading to them for now leaving their reunion in doubt. Most recently, she has been captured and turned into a Justifier, as seen in Final Crisis: She has since been freed, although the loss of control she gathered from the Justifier helmet distressed her severely. She was more than happy to destroy a warehouse full of them when Mister Terrific offered her and Cyborg to destroy them. Both she and Cyborg were rescued by Beast Boy. She then returns to where Tamaran used to be, to find that it had mysteriously returned. Starfire agrees to join Legion and enters into a relationship with Captain Comet. The violence was ended when Vrill Dox, who was off-world at the start of the conflict, arrived with Thanagarian warships and stopped the fighting without bloodshed on either side. Although her relationship with Comet was only physical for her, Comet thought different thus ending their relationship. She also assisted the Green Lantern Corp in battling Psions. Starfire helped create an alliance between Rannians, Tamaraneans and L. As part of the relaunch, Starfire became the cast member of the series Red Hood and the Outlaws. In the new continuity, the character appears to have a similar origin, though she is now a member of that titular group, in which Jason Todd Red Hood and Roy Harper Arsenal are her teammates. As in the previous continuity, she has a past relationship with Dick Grayson. One significant change to her backstory is that she was sold into slavery by her sister to save Tamaran from the Citadel. Her sexual desires are brought up very casually when she offhandedly offers Harper a chance to sleep with her. Kory tells Jason and Roy that Tamaraneans are said to have a short attention span when it comes to "all things Earth", seeing humans as little more than sensory experiences. The two attempted a romantic relationship, but Jason later notes that "[they] just friend-zoned each other". The Starfire has returned to earth for Kory because that Tamaran has been taken over by The Blight, a parasitic alien race. This is mainly because Kory blames her sister and the people of Tamaran for her enslavement, so she is torn on if she should help them now. Roy is then kidnapped during an attack on the ship and taken to Tamaran, driving Star to go to her home planet. Roy breaks up with her because of his own trust issues particularly towards Oliver Queen, but the two reconcile later on, resulting in a much more tender relationship, since Kory is able to be emotive as she normally is, and no longer has to hide her emotions. Roy openly admits to Jason several times that he loves her, and later on, the pair confess their love to one another. Right at the end of the series, Tamaran is invaded again by Helspont, and, to ensure the safety of her people, Blackfire sides with him on the condition that Tamaran be spared. After Starfire departs, Roy announces to Jason that he, too, will now go his separate way, too, thus leaving Jason on his own. He replies that they were not a team, they were friends. Powers and abilities[edit] Starfire is a Tamaranean and as such her physiology is designed to constantly absorb ultraviolet radiation. The radiation is then converted to pure energy, allowing her to fly at supersonic speeds. Originally, Starfire was capable of using this power to fly in space and even go fast enough to cross several solar systems in minutes to seconds. However, it is established in Red Hood and the Outlaws 2 and 27 that the rebooted Starfire is unable to fly without the effects of gravity, leaving her unable to travel in space unaided. This energy also gives her incredible superhuman strength and durability. This strength, combined with her fighting skills, allowed her to defeat the much stronger Donna Troy about two out of three times during purely hand to hand matches. After being experimented on by the alien Psions, Starfire gained the ability to release her absorbed energy into incredibly powerful blasts called "starbolts. The released energy leaves her in a weakened state. Starfire, and all Tamaraneans, are capable of assimilating languages through physical contact with another person. When Starfire attempts to do so with a male, she typically does so by kissing because it is "more fun" for her. Starfire is also proficient in hand-to-hand combat, having been trained by the Warlords of

Okaara. She intends to burn the city[clarification needed] to the ground. Starfire and the Amazons with her are killed in a gasoline explosion caused by Dick. In the comic tie-in to Injustice: She still harbors a romantic interest for Dick Grayson who recently left the team to join the Justice League in this reality. In the prequel to Injustice 2, she and the rest of the Titans are rescued from the Phantom Zone by the Insurgency. In Teen Titans Go! When the Gordanians had attacked Tamaran, her parents set up a ship to save him by launching him to another planet, thus saving the Tamaranean royal family bloodline.

Chapter 2 : Azrael (comics) - Wikipedia

Blackfyre is the fabled hand-and-a-half longsword of Valyrian steel once wielded by Aegon the Conqueror. It is the most famous of the several Valyrian swords once owned by House Targaryen, and provided the name for House Blackfyre.

Publication history[edit] The character first appeared in the four-issue miniseries *Batman: Sword of Azrael* [2] as Jean-Paul Valley. He then became a supporting character in the monthly *Batman* titles, eventually taking over the role of Batman [3] through the " Knightfall ," "Knightquest," and "KnightsEnd" story arcs. The problem is that I had to turn a bad guy into a real hero, not just an anti-hero or lead. You almost have to change his personality. *Dumas*, ran for issues between and Starting with issue 47 [5] , it was retitled to *Azrael: Agent of the Bat* in an attempt to boost sales by tying the series in with the rest of the *Batman* mythos , including Azrael as part of the team of Batman, Robin , and the new Batgirl. Michael Lane was introduced as a character called Azrael, introduced as part of the *Battle for the Cowl* , a storyline told in a three-issue miniseries format written by Fabian Nicieza. Fictional character biography[edit] Jean-Paul Valley[edit] Jean-Paul Valley, a university graduate student of computer science in Gotham City , is unaware that he is the latest in a line of assassin - enforcers for " The Sacred Order of Saint Dumas " , a sinister religious secret society. For most of his life, he has been brainwashed with The System, a deep level of psychological conditioning. Valley only learned of his new status upon the death of his father, who was also his predecessor, at which time his conditioning was activated and he was called upon to take up the mantle of Azrael. He worked with Alfred Pennyworth to find the weapons dealer after he had captured Bruce Wayne, using the *Batman* costume to kill the other Order members. Artwork for the cover of *Batman: Shadow of the Bat* vol. Valley also suffers from continuous hallucinations of both his father and St. With his back repaired thanks to the sacrifice of Doctor Shondra Kinsolving , and his fighting instincts rehabilitated after lessons with Lady Shiva , Wayne goes after Valley to reclaim his identity. After a prolonged battle, culminating in a final showdown in the Batcave, Bruce tricks Valley into removing his armor, excluding his helmet with night-vision lenses engaged , and exposes him to bright sunlight - the shock snaps Valley out of his delusional state. Valley is then sought out by Bruce Wayne, who feels responsible for his mental breakdown after attaining and losing the mantle of Batman. Bruce grants him a small fortune in money, information on the Order of St. Along with Brian, he discovers the evil conspiracies within the order of St. Dumas, and they help a nun named Sister Lilhy escape. He returns to Gotham for several crossover events, including *Underworld Unleashed* , *Contagion* , *Legacy* , and *Cataclysm*. Batman, who feels responsible for Valley, especially after realizing that he gave him very little training and support, decides to give Azrael missions to carry out as a test to prove himself. The first of these missions is to defeat a resurfaced Bane, but it is not until Azrael saves the lives of a group of U. Senators one of which tries to plead to Congress for the funds to rebuild Gotham City after its devastating earthquake that Batman begins to fully trust him again. Prior to those events, Batman sent Azrael after Nicholas Scratch, who was planning to kill another Senator who also wanted federal money to save Gotham City. Toward the end of the series, Azrael is plagued by supernatural occurrences in the form of possible miracles. Scratch is arrested, and LeHah falls into the river with Azrael. In *Booster Gold* vol. The index section of the *Blackest Night* tabloid later indicated that it was in fact Jean-Paul. Whatever Happened to the Caped Crusader? Michael Washington Lane[edit] In , a miniseries titled *Azrael: On his first night as Azrael*, Lane fights Talia al Ghul and her team of mercenaries led by Merlyn and later encounters Nightwing. In *Batman and the Outsiders* vol. Michael Lane has also appeared in *The New* Michael Lane was originally featured in *Batwoman* issue 2 as a cameo, which was written before the relaunch but published after, however the art was edited in order to remove him. His design was updated, with his main weapon being his sword rather than gauntlets although he was later shown to still possess the gauntlet blades. His character, however, was essentially the same, working as an enforcer for the Order of St. This marked the first proper appearance of a living Jean-Paul Valley in the DCU in over a dozen years, with previous appearances relegated to either minimal cameos or the aforementioned *Black Lantern* revival of the character. Please update this article to

reflect recent events or newly available information. August In , Jean Paul made his post Rebirth debut in the first issue of the Detective Comics line, starting with issue Jean Paul made a few cameo appearances in the first two issues before joining the roster fully in issue After something was done to his suit by Ascalon, Luke Fox gave him a new suit inspired by Batman and after the fight Azrael went back to his old suit [18]. After Batwoman invited Azrael and Batwing to join her colony, they agree in hopes to reshape the colony. Powers and abilities[edit] As Azrael, Jean-Paul has enhanced physical abilities. He has been shown to fight at heightened levels even when fatigued, a fact exemplified when Azrael was able to defeat Bane, despite suffering from both extreme exhaustion and Venom withdrawal. Azrael is also a superior fighter;he has incredible technique and style in his fighting moves, he also possess super speed, reflexes, and agility. Azrael matched Deathstroke in a sword duel and has even defeated Batman in hand-to-hand combat. Equipment[edit] The original Azrael costume worn by Jean-Paul Valley consists of red and gold armor. After becoming an "Agent of the Bat", he dons silver and black armor with a red cape and a stylized red bat symbol on the chest. Later on, he dons red armor with golden gauntlets, boots, shoulder pads and a blue cape. He sometimes carries a flaming sword, and also uses two retractable daggers hidden in the gauntlets of his costume that can be charged with thermal energy to increase their destructive power. Dumas to an agent of the Batman to his own man. The New 52 version of Jean-Paul wears a similar costume, and his weapon is a flaming knight sword called Murasame. He also possesses the familiar gauntlet blades as well. Sword of Azrael referenced by his son as having the same name and, with more detail, in Azrael Annual 1 identified as just Ludovic Valley. A Chinese man, supposedly given the same training as Valley and an identical costume, is briefly under the control of the Order. Also, the position of the Order of St. Sean Murphy has confirmed that Azrael will appear in his sequel to Batman: White Knight , Batman: Curse of the White Knight, as a villain and will team up with the Joker. Please help improve this article by adding citations to reliable sources. Unsourced material may be challenged and removed. February Television[edit] Azrael made his debut in the second season of Gotham , portrayed by James Frain. Galavan is the power behind a group of insane criminals called "The Maniax" who terrorize Gotham, but betrays them by killing their leader, Jerome Valeska , making him a public hero. He is elected Mayor of Gotham with the reluctant help of Oswald Cobblepot , whom he blackmails into killing the other mayoral candidates by holding his mother, Gertrude, hostage. In " Wrath of the Villains: Pinewood ," Galavan is revived by Hugo Strange , who gives him enhanced physical abilities. Galavan attacks the Gotham City Police Department, killing several police officers and wounding its captain, Nathaniel Barnes. Unleashed ," Galavan is poised to finally kill Gordon, when Cobblepot and his henchman Butch Gilzean blow him up with a rocket-propelled grenade launcher.

Chapter 3 : Aldori Swordlords - PathfinderWiki

Sword of Black Fire by David Addley was and exciting book to read and very creative.

Out of date The content of this page may be partially or fully out of date. The game is getting difficult sometimes? Here you can find all the important information you might need. Contents [show] Beginning the game To begin the game you must create a party consisting of four members. There are eleven classes that you can use to create the party: It should have the following structure: Tank - He who protects the whole party, must have much HP and defensive abilities. He must be a source of sustainable, independent of mana, damage. Party Presets Here follow a few examples on how you can build your party: Begin of Story Your first party member aka you this time awakes from a scary dream in which somebody told him than he will suffer his "counter". He takes his sister to riverbank where a scary sorcerer, Zerod kidnaps his sister. Then a werewolf, which was following Zerod, attacks. You battle him and, unless you really try not to, kill him. He says a name when dying - "Thrygul". Then you return to the village and tell the Elders what has just happened. They say that Thrygul was a necromancer and settled far away in the north, in Blackfire Mountains. They give you some gold and tell you to take your friends and set out for the Blackfire Mountains in order to save "your" sister. Island of Flintwood Flintwood First off INN - Save game and edit your party here. Rest option revives all the fallen party members and fully restores HP and MP. Shops - Buy various items from different NPC, and sell the items you possess. Potions and Consumables, Armory: Walk thought the tunnel to another entrance. Break the boxes for Gem of Dexterity. Return same way, arm your party, take buff from campfire and leave the town! You can augment weapons clicking on gem and then on weapon to augment. Arm for Travel Obviously, you must arm your party with some stuff to be able to fight monsters. Buy spells for your spellcasters and weapons for everyone. Buy just one-two spells for every spellcaster and wield at least one weapon for every member. Move rod from the first member to a spellcaster. Equip everybody in armor for money that has still remained. Once you complete the above, leave the town.

Chapter 4 : House Blackfyre - A Wiki of Ice and Fire

On a world known as Guiya, the Elfin kingdom of Valkhara is threatened by a dark and evil theinnatdunvilla.comrdon, the deathlord, unleashes his army of Gorg upon the lands of Guiya in hope to make the world his sole empire.

Daemon was the eldest and took primacy as he was the son of Aegon by his cousin Daena Targaryen, the sister and briefly wife of King Baelor I Targaryen. She was locked with her sisters in the Maidenvault in the Red Keep so the sight of them would not tempt Baelor to carnal thoughts. Despite this isolation, she fell pregnant and refused to divulge the identity of the father. For this, she became known as Daena the Defiant. Her son Daemon became a skilled and canny fighter whilst still a boy, and at the age of twelve King Aegon IV acknowledged Daemon as his own. Shockingly, he gave Daemon his sword, the Valyrian steel blade Blackfyre. After this, he seemed to favour the martial, skilled warrior Daemon and disdained his legitimate eldest son, Daeron. Towards the end of his life in AL, it appears that Aegon IV may have been considering making Daemon his heir, although this would have been highly legally problematic. Daeron II took the throne. Over the next decade the realm began to splinter between the two men. Daemon was a skilled and brave warrior, fearless in battle, highly charismatic and attractive to women. He was honourable and the soul of chivalry. His half-brother Daeron was less attractive and had a tendency towards fat, but he was also a peacemaker and a diplomat of tremendous skill, keeping the realm out of war, solving internal divisions and establishing closer ties with Dorne. A number of factors contributed to the falling out of Daemon and Daeron. Daemon was said to be in love with Daenerys and wished to marry her himself. However, the final straw seems to have been the presentation of evidence that Daeron II was actually the result of an illegitimate union between his mother Naerys and uncle Aemon, and was thus not the rightful heir to the Iron Throne. Great knights and armies flocked to both banners and the First Blackfyre Rebellion was the result, more than a year of fire and fury that ended in the Battle of Redgrass Field, where Daemon Blackfyre and his two eldest sons, Aegon and Aemon, were slain by his half-brother Bloodraven, who had sided with Daeron. Their uncle, Bittersteel, founded a mercenary company known as the Golden Company, which supported their claim to the Iron Throne. Four times after the Redgrass Field, the Blackfyres attempted to prosecute a claim to the throne, thrice aided by Bittersteel and the Golden Company, each time being defeated or driven off. The last of the Blackfyre Pretenders was Maelys the Monstrous, so-named as he was misshapen and disturbing to look upon. It was said he had consumed his own twin in the womb, for he had a second, malformed head growing out of his shoulder. Maelys made alliance with the Band of Nine, a group of eastern nobles seeking to help one another achieve what they could not do by themselves. The Band based themselves on the Stepstones in preparation for an invasion of Westeros, unaware that King Aegon V had already learned of their plans. The Band was attacked and destroyed by a Westerosi army, and Maelys was slain in combat by a young knight named Ser Barristan Selmy. This conflict became known as the War of the Ninepenny Kings. Legacy Edit House Blackfyre was considered the greatest threat to the Targaryen rule until the rebellion of Robert Baratheon, since it came so close to unseating the ruling dynasty. After this occasion, the Targaryens were wary over legitimising any future bastards born to their kings. Whilst that is unproven, the Golden Company certainly still exists and has a reputation for competence and skill at arms in the Free Cities that is second to none. They would likely remain implacable foes of any surviving scions of House Targaryen. Started the First Blackfyre Rebellion. Aegon Blackfyre, his first born son. His father's heir and squire. Aemon Blackfyre, his second son. A squire to his father and twin to Aegon. Daemon II Blackfyre, his third son. Haegon I Blackfyre, his fourth son. Heir to his older brother Daemon II. Aenys Blackfyre, his fifth son. Two other sons and at least one daughter. Daemon Blackfyre, a cousin to Maelys I, of unknown exact descent. Of unknown exact descent. Related to House Blackfyre.
