For most American retirees, Medicare is their primary health care plan. Medicare is complicated, and understanding it is crucial to making smart decisions to help control health care costs. The lack of literacy in retirement income planning in the United States indicates that many people are unable to make informed decisions about their own retirement and Medicare. Test your own Medicare literacy with this question quiz. Hopkins is a well-recognized writer, speaker and thought leader in the area of retirement income planning. His most recent book, "Reworking: Rewiring The Way You Think About Retirement," details the behavioral finance issues that hold people back from a more financially secure retirement. If your birthday is on the first day of the month, Part A and Part B will start the first day of the prior month. She likes her health insurance, and she decides to stick with it because there are no adverse consequences if she does not enroll in Medicare. True False If you are 65 or older and have health coverage through work but the company has fewer than 20 employees, by law Medicare becomes the primary insurance. If your company has more than 20 employees, you can stay on your group health care plan and have it be the primary payor. So, if you are close to age 65, but not getting Social Security benefits or Railroad Retirement Benefits, you will generally need to enroll into both Medicare Parts A and B to have coverage. Your initial enrollment period to sign up for Medicare Parts A and B is during a seven-month window that begins three months before the month you turn 65 and extends through the three months after. If you miss this window you will have to wait for the General Enrollment period Jan. True False Part B covers services from doctors, preventive services, outpatient care and other services. To get prescription drug coverage you will need to sign up for a Part D plan, Medicare Advantage plan or have coverage from an employer-provided plan. True False Original Medicare Part A and B does not cover dental care, and Medigap policies do not cover any additional services or care not already covered by Medicare. Instead, Medigap helps you pay for certain out-of-pocket deductibles and coinsurance payments. If dental insurance is important to you, consider that some Medicare Advantage plans do provide a level of dental coverage. True False Medicare Part D options vary greatly from plan to plan. Drugs in each tier also have different costs. So consumers have to do some research to find the best plan for their needs. Medicare actually keeps a website up that rates Part D plans in your area. Start by looking at the Medicare Plan Finder , which will search for plans in your area. True You can pay higher Part B premiums for a variety of reasons, including paying a higher amount because of your income. IRMAA is an extra charge added to your premium. Some plans will provide additional out-of-network coverage, but this can be limited. True While HSAs need to be funded before you begin Medicare coverage, you can use your HSA money once you enroll in Medicare to pay for deductibles, premiums, copayments and coinsurance amounts.
