One of several beautiful lagoons and salt marsh areas along coastal Highway Jagged cliffs jut into the sea. Some modern white windmill farms on the mountains along Highway This is the largest windmill park in Canada. The municipality of Cap-Chat boasts the most powerful and tallest vertical axis windmill in the world. When I used my camera with 35X optical zoom to zoom in, I saw many fishing birds, cormorants, on that small rocky island. This means that there are lots of fish in the water in this area. Although Highway makes a complete loop around Gaspé Peninsula including northern section along northern coast, southern section along southern coast and an inland section to close the loop. Then we took Highway 17 southwest to St. Leonard, then we took Highway 2 northwest which becomes Highway in the Province of Quebec. We took the ferry to cross the St. Notice that there is a suspension bridge over the crest of falls providing access to both sides of the park as well as spectacular views, The walkway is about yards across and about 4 feet wide. Unfortunately, it was raining when we arrived here in the late afternoon of July 11, The rain limited our activities here and the quality of the pictures taken. I was wearing a raincoat standing on the top of the step wet staircase in taking these pictures. Zoom in for a closer view of the suspension bridge over the crest of falls and some visitors on the bridge. Some visitors in raincoats on the bridge. The comment from one of the visitors was that " Kinda nerve-wracking. It offers stunning view of the magnificent waterfalls and the St Lawrence River. Zoom in on the lower portion of the waterfalls. I also took a movie clip of the dynamic of the thundering waterfalls and uploaded the movie clip to the YouTube website at: The view of the Quebec City and St. Lawrence River from the top of the step staircase during the raining late afternoon. The view would have been fantastic on a clear sunny day. On that raining afternoon with intermittent heavy rain, I had to hide my camera under my raincoat when it was raining hard. If it were a clear sunny day, I would have taken a series of pictures to produce a spectacular panoramic picture from the top of the step staircase. The pictures of all these beautiful scenery along the way on this web page show that the long drive on the scenic coastal highway alone is worth the trip in addition to those magnificent national parks described in Parts 1 to 4. On the next morning on July 12, , we drove south from Levis toward New Jersey to go home. This completes my report of our day driving tour of the Province of Quebec. From time to time, I saw some seabirds flying just above the water or landed on the water. Other passengers on the other side of the big ferry saw a white Beluga whale. Beach and cliff at Parc national de Miguasha in southern Gaspé Peninsula. The area is of paramount importance in having the greatest number and best preserved fossil specimens found anywhere in the world of the lobe-finned fishes that gave rise to the first four-legged, air-breathing terrestrial vertebrates - the tetrapodes. Notice the tiny size of people on the walk paths on the ground level below the Step Stairway. That is why people on the suspension bridge and on the top of the Step Stairway all feel kind of nerve wrecking.

Please read our disclosure. Montmorency Falls is known for its impressive feet high waterfall while Quebec City is renowned for flat, easy bike paths. Cyclo Services put together a fantastic package that included superb equipment, a knowledgeable guide, safe riding, and the magnificent Montmorency Falls at the end. This trip is a perfect introduction to bike touring and the Quebec countryside. We contacted Cyclo Services, who were very responsive but uncertain if they were going to run the tour this early. They were able to pull it out and, luckily, we had the most beautiful, sunny weather of our trip on bike day. I am a complete T-Rex with little arms that usually require a female-specific geometry for the frame. They had a perfectly suitable bike for me. They tuned the bike correctly for my body, much like the tips for bike touring to learn how to prepare for an epic bike ride. The equipment was, simply put, the best rental bicycle I had ever ridden. Cyclo Services provided them with electric bikes, and they had no difficulty in completing the ride, even uphill. We entered just around the corner from the shop, and there was a dedicated bike trail for most of this route. Usually, the tour takes the path the entire way to the falls, but we made a small detour more on that later. Luckily for us, we were only going 12 km 8 miles down the path and back. I would love to return and see where the other half of this trail goes and all the different bike paths around Quebec for that matter. Just a little way down from the shop, we visited a lovely park called Domaine Maizeret. This hectare park has a historic chateau, manicured gardens, and groves of flowering trees. It would have been stunning a few weeks later into the spring. In early spring, we cruised in to look at the map and imagine what it would look like in a couple of weeks. Just knowing that there is an upper road route can help you ask questions at the bike shop or take a taxi. Our group pulled into the park entrance and secured our bikes. We walked through the building learning about the history and fascinating facts about Montmorency Falls. Did you know that Montmorency Falls are higher than Niagra Falls? We exited the building and walked around a bend. That is when I first saw Montmorency Falls. Massive amounts of water were pouring over the lip in one big stream. We entered the first observation deck, and I could feel the cool mists blowing off the falls. We climb a couple of flights of stairs to reach the suspension bridge that crossed the river. It felt very solid and afforded rare aerial views of a waterfall. My favorite vista point was from the far side of the falls. Here, the sunlight passing through the mist created rainbows. Montmorency Falls is our kind of place for some fun little outdoor adventures. Ghost Stories of Montmorency Falls You might guess by now that we enjoy a good ghost story. The story goes like this: They dreamed of their wedding day, but before they could get married, the young man was called into active duty to defend Quebec from the Brititish. He died during the Battle of Montmorency Falls, and his betrothed, overcome with grief, searched for him at the falls for over a year. She would call his name, and never get an answer. Eventually, sadness turned to utter despair, and she went to the falls one last time. Wearing her wedding dress, she flung herself over the falls into the churning waters below. They never found her body, but people say they can see a woman in a wedding dress in the mists of the falls on certain days. They had first-rate equipment, excellent guides, and even their snacks of dried cranberries and local cheese were outstanding. I can honestly recommend their services and, if the weather is good, biking in Quebec. Located at Rue Saint Paul, they are right in the heart of the old city. They offer an assortment of guided bike tours for the beginning to moderate rider featuring: Our first big international trip together was a miles ride through Thailand. We are excited to share our journey with you Subscribe to receive our latest posts by email Email Address:

Suleiman during the Siege of Rhodes in Upon succeeding his father, Suleiman began a series of military conquests, eventually suppressing a revolt led by the Ottoman-appointed governor of Damascus in Its capture was vital in removing the Hungarians and Croats who, following the defeats of the Albanians , Bosniaks , Bulgarians , Byzantines and the Serbs , remained the only formidable force who could block further Ottoman gains in Europe. Suleiman encircled Belgrade and began a series of heavy bombardments from an island in the Danube. Belgrade, with a garrison of only men, and receiving no aid from Hungary, fell in August As the ambassador of the Holy Roman Empire to Constantinople was to note, "The capture of Belgrade was at the origin of the dramatic events which engulfed Hungary. It led to the death of King Louis , the capture of Buda , the occupation of Transylvania , the ruin of a flourishing kingdom and the fear of neighboring nations that they would suffer the same fate In the summer of , taking advantage of the large navy he inherited from his father, Suleiman dispatched an armada of some ships towards Rhodes, while personally leading an army of , across Asia Minor to a point opposite the island itself. Following the brutal five-month Siege of Rhodes , Rhodes capitulated and Suleiman allowed the Knights of Rhodes to depart. In its wake, Hungarian resistance collapsed, and the Ottoman Empire became the preeminent power in Central Europe. Reacting in , Suleiman marched through the valley of the Danube and regained control of Buda; in the following autumn, his forces laid siege to Vienna. In both cases, the Ottoman army was plagued by bad weather, forcing them to leave behind essential siege equipment, and was hobbled by overstretched supply lines. In the Habsburgs attempted to lay siege to Buda but were repulsed, and more Habsburg fortresses were captured by the Ottomans in two consecutive campaigns in and as a result, [31] Ferdinand and Charles were forced to conclude a humiliating five-year treaty with Suleiman. Ferdinand renounced his claim to the Kingdom of Hungary and was forced to pay a fixed yearly sum to the Sultan for the Hungarian lands he continued to control. Two events in particular were to precipitate a recurrence of tensions. First, Shah Tahmasp had the Baghdad governor loyal to Suleiman killed and replaced with an adherent of the Shah, and second, the governor of Bitlis had defected and sworn allegiance to the Safavids. Having joined Ibrahim in , Suleiman made a push towards Persia, only to find the Shah sacrificing territory instead of facing a pitched battle, resorting to harassment of the Ottoman army as it proceeded along the harsh interior. As in the previous attempt, Tahmasp avoided confrontation with the Ottoman army and instead chose to retreat, using scorched earth tactics in the process and exposing the Ottoman army to the harsh winter of the Caucasus. Part of the treaty included and confirmed the return of Tabriz, but secured Baghdad, lower Mesopotamia , the mouths of the river Euphrates and Tigris , as well as part of the Persian Gulf. Ottoman ships had been sailing in the Indian Ocean since the year The Mughal Emperor Akbar himself is known to have exchanged six documents with Suleiman the Magnificent. Aden in Yemen was captured by the Ottomans in , in order to provide an Ottoman base for raids against Portuguese possessions on the western coast of India. After the first Ajuran-Portuguese war , the Ottoman Empire would in absorb the weakened Adal Sultanate into its domain. This expansion fathered Ottoman rule in Somalia and the Horn of Africa. This also increased its influence in the Indian Ocean to compete with the Portuguese Empire with its close ally the Ajuran Empire. As a result, an Ottoman expedition to Aceh was launched, which was able to provide extensive military support to the Acehnese. The Portuguese discovery of the Cape of Good Hope in initiated a series of Ottoman-Portuguese naval wars in the Indian Ocean throughout the 16th century. The Ajuran Sultanate allied with the Ottomans defied the Portuguese economic monopoly in the Indian Ocean by employing a new coinage which followed the Ottoman pattern, thus proclaiming an attitude of economic independence in regard to the Portuguese. Recognizing the need to reassert naval preeminence in the Mediterranean , Suleiman appointed an exceptional naval commander in the form of Khair ad Din , known to Europeans as Barbarossa. Once appointed admiral-in-chief, Barbarossa was charged with rebuilding the Ottoman fleet, to such an extent that the Ottoman navy equaled in number those of all other Mediterranean

countries put together. John [24] to victory against the Ottomans at Tunis , which together with the war against Venice the following year, led Suleiman to accept proposals from Francis I of France to form an alliance against Charles. The Siege of Malta in As a result, Suleiman dispatched galleys [49] under Barbarossa to assist the French in the western Mediterranean. Barbarossa attacked and captured Nice in As the historian Lord Kinross notes, "Not only was he a great military campaigner, a man of the sword, as his father and great-grandfather had been before him. He differed from them in the extent to which he was also a man of the pen. He was a great legislator, standing out in the eyes of his people as a high-minded sovereign and a magnanimous exponent of justice". After eliminating duplications and choosing between contradictory statements, he issued a single legal code, all the while being careful not to violate the basic laws of Islam. His Kanune Raya, or "Code of the Rayas", reformed the law governing levies and taxes to be paid by the rayas, raising their status above serfdom to the extent that Christian serfs would migrate to Turkish territories to benefit from the reforms. In the area of taxation, taxes were levied on various goods and produce, including animals, mines, profits of trade, and import-export duties. In addition to taxes, officials who had fallen into disrepute were likely to have their land and property confiscated by the Sultan. Schools attached to mosques and funded by religious foundations provided a largely free education to Muslim boys in advance of the Christian countries of the time. Educational centers were often one of many buildings surrounding the courtyards of mosques, others included libraries, baths, soup kitchens, residences and hospitals for the benefit of the public. After an apprenticeship, artists and craftsmen could advance in rank within their field and were paid commensurate wages in quarterly annual installments. When his young son Mehmed died in , he composed a moving chronogram to commemorate the year: Peerless among princes, my Sultan Mehmed. The literary historian Elias John Wilkinson Gibb observed that "at no time, even in Turkey, was greater encouragement given to poetry than during the reign of this Sultan". The people think of wealth and power as the greatest fate, But in this world a spell of health is the best state. What men call sovereignty is a worldly strife and constant war; Worship of God is the highest throne, the happiest of all estates. Suleiman also became renowned for sponsoring a series of monumental architectural developments within his empire. The Sultan sought to turn Constantinople into the center of Islamic civilization by a series of projects, including bridges, mosques, palaces and various charitable and social establishments. Suleiman also restored the Dome of the Rock in Jerusalem and the Walls of Jerusalem which are the current walls of the Old City of Jerusalem , renovated the Kaaba in Mecca , and constructed a complex in Damascus.
