LW Comment “ police need to talk to residents When we initially reported this attack our understanding was that it was as the result of a dispute at a party on the Green Bank. Although that would be serious in itself we are now told two weeks after the event that this was an unprovoked attack by three thugs on bicycles. This raises grave issues about the general level of crime in Wapping and confirms the general belief that Wapping is no longer a safe place to live. We did hear rumours that three youths on bicycles were involved but without any confirmation or further information from the police we did not publish this. The delay in this information being made public “ and this was only because LW happened to see a routine MPS press release “ makes it that much harder for the police to identify either the suspects or the potential witness. As with all law-abiding Wapping residents LW is always keen to help the police. However LW and other residents could help a lot more if the police talked to the Wapping community. We are both on the same side.
