

Chapter 1 : Welcome to Delaware County Iowa!

Explore the State of Delaware. Imagine miles of pristine beaches and friendly, fun coastal towns. See yourself taking a tax-free shopping spree at Delaware beach boutiques and galleries, then stepping out for an evening of cutting-edge culinary adventure, followed by a quiet walk along the surf.

Welcome to the Delaware County Pa. History Website This web site is intended for the serious and casual researcher. Click on the Municipalities bar above and select the township or boro you want to look at. There you will find 18th and 19th century tax records, early censuses, cemeteries lists, town directories, maps etc. Then visit the Genealogical Resources link above where there are numerous books on Delaware County history from the 19th and early 20th century. Records are added regularly so please check back often. Most of what you see here and what will be added comes from the forty-five year accumulation of Delaware County Historical memorabilia amassed by Keith Lockhart. This web site has been made possible through the combined efforts of former Delaware County State Representative Ron Raymond, who obtained funding for the web site, and historian Keith Lockhart. He has written numerous booklets on the history of the area and for many years penned a history column for Town talk. He has also shared his vast knowledge of local history through articles for both the Philadelphia Inquirer and the Daily Times Newspapers. Through the dedication and hard work of numerous typists the transcription of the tax and census records took over two years of work to complete. My sincere gratitude goes out to these people. History that are not available anywhere else. Contact Keith Lockhart today. Includes pictures and info on the county. Thanks Keith What is new on the site: July 1, more Delco Realty news has been added to that page all sorts of building going on, Check it out!! July 2, Big update newspaper articles for Aston Twp. July 16, more Delco Realty News has been added. Trying to keep the site FREE!! July 21, more Delco realty News has been added along with more marriages from the Delaware County American newspaper. August 7, the Upper Chichester Twp. September 3, a new book is out see below and visit my lectures and event link below. Lots going on this month, which is the history month for Delaware County!! September 26, More marriages from the Delaware County American newspaper have been added along with some new maps. October 14, mor Delco Realty news has been added along with marriages from the Delaware County American Newspaper. October 31, Happy Halloween!! Haverford Township police office, Matt Hufnal has written a new book, "Hallissey" about the making of the first police chief in Haverford and the problems that were involved. It was not easy creating and running a police department years ago!! The book which just came out in late August is available on Amazon. Click on Amazon to go to the link to purchase the book. This month, July, , a book on growing up in Chester during WW2 is just out. People who have read it, love it!! The book is by Andrew Miller who teaches history at Neumann College. Bergdoll fled to Germany during the First World War rather than be drafted. The story caused national head lines in the day. Read this well done book about a family crisis and what happend to them. Meredith a Delco native set two world and Olympic records in Stockholm, Sweden. The book is by Jack Lemon from Media class of Click on the link above to order the book and for more information. The page as it states is to announce upcoming meetings, lectures and historical events throughout Delaware County. If your group is planning something special, or just a meeting, please pass the information on to me and it will be posted on this new page. In the past 50 odd years he has amassed the largest collection of trolley pictures and information around. Stan has been kind enough to share some of his pictures and information with my site and over the next month or so, maps, pictures and information will be added about all the trolley routes and companies that once operated in Delaware County. Delaware County Mills A new mill page has been created, to go to it, click the link above. It features the mill survey, the report of the flood and a rare mill map for the entire county also from More will be added to this site in the next few months. The link for the Chester Times to search it, is now here. The good news after numerous scanning and experimenting the first year of the Morton Chronicle from is now on the site and can be searched. More years will be added next week most from my personal collection. It has taken allot longer than I thought to do this but it will be well worth it. Take a look and let me know what you think.

Chapter 2 : Welcome to Delaware County | Congressman Robert Brady

The Delaware Welcome Center is conveniently located off of I in northern Delaware and within driving distance to major metropolitan areas. In addition, to dining and tax-free shopping options at the Delaware Welcome Center, travelers can also receive information on local and statewide attractions, events and activities.

From the state line, the highway heads east as the six-lane Delaware Turnpike John F. Kennedy Memorial Highway through wooded areas. Not far from the Maryland border, the road comes to a toll plaza. I widens to eight lanes and comes to a modified cloverleaf interchange with DE , which heads north to Newark and the University of Delaware and south to US The road heads through more woodland with nearby suburban development as it curves northeast, with the median widening for the Biden Welcome Center service plaza accessible from both directions. A short distance later, I reaches the DE interchange west of Christiana. At this point, the lanes of the interstate split further apart and the northbound ramp for I and northbound DE splits off to parallel the northbound lanes of I The ramp to northbound I has two lanes while northbound I carries four lanes. Upon crossing DE , the ramp to northbound DE from the northbound I ramp splits off while the ramp from DE to northbound I merges in from the left. Not far after encountering DE , I splits off to the southeast, with the northbound entrance from I, the southbound exit to I, and the southbound entrance from I on the left side of the road. At this point, the Delaware Turnpike comes to its northern terminus. The road heads into Wilmington and curves to the north, passing to the west of Daniel S. Frawley Stadium , which is home of the Wilmington Blue Rocks baseball team, as it heads west of the Wilmington Riverfront. At this point, the four-lane freeway continues northeast, with one-way northbound North Adams Street to the east and one-way southbound North Jackson Street to the west serving as frontage roads. Farther northeast, the freeway heads into an alignment below street level and comes to an interchange with DE Past this interchange, the road heads to the north and crosses Brandywine Creek , heading through Brandywine Park , which is a part of the Wilmington State Parks complex. The freeway curves east to pass over the railroad tracks and continues through wooded areas to the south of the CSX tracks, crossing Shellpot Creek and coming to a diamond interchange with DE 3 near the town of Bellefonte. After this exit, I and the rail line curve to the northeast and continue through woodland with nearby residential areas, passing northwest of Bellevue State Park. The highway comes to a northbound exit and southbound entrance with Harvey Road near the villages of Arden , Ardentown , and Ardencroft. Past this interchange, the freeway curves east away from the CSX tracks and winds northeast near suburban neighborhoods in Claymont. In Claymont, the interstate comes to a diamond interchange with DE 92 , at which point I also merges onto the northbound direction of the interstate. Following the interchange, I passes to the west of the Tri-State Mall before it crosses the state line into Pennsylvania. Cash or E-ZPass is accepted for payment of tolls. However, it was discontinued after a month because most motorists did not mail in their tolls. This bill called for the elimination of the three ramp tolls while keeping the mainline toll plaza near the Maryland border. In , a proposal was made to build a truck stop and motel next to the existing facilities. Senator and 47th Vice President Joe Biden. A renaming ceremony was held, with Governor John Carney and members of the Biden family including Joe Biden in attendance. At the ceremony, Governor Carney signed a bill formally renaming the service plaza. Route A followed the current alignment of I while Route B bypassed the city to the east along the current alignment of I FAI-1 was proposed to run from the Maryland state line east to an interchange west of Farnhurst while FAI-2 was proposed between this interchange and the Pennsylvania border through the western part of Wilmington. As a result, the state of Delaware financed the road with bond issues and would build it as a toll road called the Delaware Turnpike. The same year, plans were made for several bridges along I Locals tried to fight routing I through the central core and instead suggested routing it along Bancroft Parkway to the west or the present-day route of I to the east. However, the lame-duck Republican -controlled city council approved routing I along Adams and Jackson streets in The demolition of homes began in January Kennedy , Delaware Governor Elbert N. Carvel , and Maryland Governor J. Millard Tawes in a ceremony at the state line on November 14, , in which a ribbon cutting took place and a replica Mason-Dixon line crownstone was

unveiled. The first motorist to pay a toll on the turnpike was Omero C. Catan, also known as "Mr. First", of Teaneck, New Jersey, who marked this occasion as the first moment he achieved. Kennedy Memorial Highway in his honor in December. In late spring of 1953, construction on the South Wilmington Viaduct began. In June of that year, the substructure of the I bridge over the Brandywine Creek was completed. In 1954, construction was underway to build the below-surface alignment of I between Fourth Street and the Brandywine Creek in Wilmington. The construction of the highway led to the decline of the residential and commercial base in Wilmington. The completion of this section of I provided an uninterrupted freeway connection between Wilmington and Baltimore.
