History[ edit ] The four took their band name from the song and album Dixie Chicken by Lowell George of Little Feat , [6] originally playing predominantly bluegrass and a mix of country standards. All four women played and sang, though Maguire and Robison provided most of the instrumental accompaniment for the band while Lynch and Macy shared lead vocals. In , Maguire still known then as Martie Erwin had won second place, and in , third place in the National fiddle championships held at the Walnut Valley Festival in Winfield, Kansas. The record titles were significant; during that period of time, the bandmates dressed up as " cowgirls ", and publicity photos reflected this image. The Dixie Chicks began building up a fan base, winning the prize for "best band" at the Telluride Bluegrass Festival and opening for established country music artists, including such big names in that genre as Garth Brooks , Reba McEntire , and George Strait. Robin Lynn Macy was not pleased with their change in sound, however. She left in late to devote herself to a "purer" bluegrass sound, remaining active in the Dallas and Austin music scenes. As Maguire and Robison considered their options and the major record labels waffled over whether they should take a risk on an all-woman band, a few reviewers took note of their talents: Some record label executives will be kicking themselves soon enough when the Dixie Chicks are queens of the honky-tonk circuit. If their show at the Birchmere last week was any indication, these Chicks have what it takes to make the big time, yet no major label has taken the plunge to sign them. The deal was finalized with Sony over the summer of . At the time, the sisters stated that Lynch had been considering leaving the band for over a year, weary of touring, and hoping to spend more time with her daughter at home. Commercial success with *Wide Open Spaces* and *Fly*[ edit ] The Dixie Chicks at the Country for Kids concert in in Stafford, Virginia With the addition of Natalie Maines , the new lineup had a more contemporary sound, as well as a new look, leaving their cowgirl dresses with their past, giving the band a broader appeal. After Maines joined the band, the instrumental lineup was essentially the same, though Maines was not an acoustic bassist. Instead, she played acoustic and electric guitar , and occasionally electric bass guitar or papoose in concert. She sang lead vocals , with Maguire and Robison singing backing vocals. That gave Emily and [me] a chance to branch out, because we loved those kinds of music but felt limited by our instruments. A single " I Can Love You Better " was released in October , and reached the Top 10 on American country music charts, while the new lineup recorded the rest of their debut album. *Wide Open Spaces* was released on January 23, . This first album for the current band added a widespread audience to their original following, entering the top five on both country and pop charts [22] with initial sales of 12 million copies in the country music arena alone, setting a record for the best-selling duo or group album in country music history. Dixie Chicks albums have continued to place in the list of the 50 best-selling albums in American history over a half-decade after they were released. However, a few of their songs brought controversy within their conservative country music fan base, and two songs caused some radio stations to remove the Chicks from their playlists: The band later made a video portraying the nefarious deed, with actor Dennis Franz playing the murdered husband. In an interview, Maines commented about Sony worrying about the reference to "mattress dancing" in "Sin Wagon", refusing to discuss it in interviews. A Tribute to Heroes telethon following the September 11, attacks. The three women found themselves home, in Texas, each happily married, planning families, and writing songs closer to their roots, without the usual pressures of the studio technicians from the major labels. In addition, the text of the opening track and first single, " Long Time Gone ", was a pointed criticism of contemporary country music radio, accusing it of ignoring the soul of the genre as exemplified by Merle Haggard , Johnny Cash , and Hank Williams. Approximately six million copies of *Home* were sold in the United States. Natalie Maines said afterward, "I want to check the record books and see how many fathers and daughters have won Grammys together". Controversy[ edit ] This section may be too long to read and navigate comfortably. Please consider splitting content into sub-articles,

condensing it, or adding or removing subheadings. This concert kicked off their Top of the World Tour. It dropped out of the entire chart the following week. Maines attempted to clarify matters on March 12 by saying, "I feel the President is ignoring the opinions of many in the U. I feel that whoever holds that office should be treated with the utmost respect. We are currently in Europe and witnessing a huge anti-American sentiment as a result of the perceived rush to war. I love my country. I am a proud American. Lipton, who had signed on as full sponsor of the Dixie Chicks tour, was barraged with complaints from consumers threatening to boycott their products along with those of their parent co-sponsors, Unilever and Pepsi. Lipton fully honored its sponsorship and financial commitment to the Dixie Chicks, but had to readjust specific local aspects of the sponsorship activation where research polls determined that public sentiment was particularly damaging. In one famous anti-Dixie Chicks display, former fans were encouraged to bring their CDs to a demonstration at which they would be crushed by a bulldozer. On July 25, , the Associated Press reported him saying: It was like a verbal witch-hunt and lynching. They can say what they want to say Freedom is a two-way street Held in Greenville, South Carolina , on May 1, it was attended by a sell-out crowd of 15, tickets for most of the shows had gone on sale before the controversy erupted [58]. The women arrived prepared to face oppositionâ€”and Maines invited those who had come to boo to do soâ€”but the crowd erupted mostly in cheers. The degree of hatred directed toward the Chicks included a specific death threat against Maines in Dallas that led to a police escort to the show of July 6 and from the show directly to the airport. Maines said, "We always felt like we were searching for ways to make an impact outside of music A lot of positive things have come from it, and this is just one of them. In the ad, the Chicks are about to give a stadium concert when the electricity suddenly goes out; they continue anyway, performing an a cappella version of "Cowboy Take Me Away" to the raving cheers of the fans. Should the Dixie Chicks like to make an unconditional financial donation to the American Red Cross, we will gladly accept it. A Concert for the Gulf Coast telethon. The song was one of only two performed at the concert that was not donated for the subsequent DVD. The Chicks subsequently made their new single available as a digital download single with proceeds to benefit hurricane relief through Habitat For Humanity and the American Federation of Musicians Gulf Coast Relief Fund, rather than the Red Cross. Written by the Dixie Chicks and songwriter Dan Wilson , it directly addressed the political controversy that had surrounded the group for the previous three years. We knew it was special because it was so autobiographical, and we had to get it right. And once we had that song done, it freed us up to do the rest of the album without that burden. Thus, the band considered the album not so much political as very personal. Taking the Long Way was released in stores and online on May 22, The band felt they had nothing to lose by a newer approach, and possibly quite a bit to gain. The album contained several tracks that seemed to indirectly reference what the group called "The Incident", and the group remained defiant. They limit what you can do. The Chicks became the first female band in chart history to have three albums debut at No. In June , Emily Robison noted the lack of support from other country music performers: It became a sickening display of ultra-patriotism. Why do you have to be a patriot? This land is our land? You can like where you live and like your life, but as for loving the whole country Ticket sales were strong in Canada and in some Northeastern markets, but notably weak in other areas. A number of shows were canceled or relocated to smaller venues due to poor sales, and in Houston, Texas , tickets never even went on sale when local radio stations refused to accept advertising for the event. As part of the tour, the Dixie Chicks became the first major band to hire a designated blogger "all-access" to keep up with them in their promotional activities and tour. Maines interpreted the wins as being a show of public support for their advocacy of free speech. Shut Up and Sing. Ads were rebuffed by the smaller CW network as well, but local affiliate stations of all five major broadcasters, including NBC and CW, ran promotional spots for the film in New York and Los Angeles, the two cities where it opened that day. At a December rally in Little Rock, Arkansas , Maines expressed support for the West Memphis Three , three men convicted of a triple murder who many believe to be innocent. Country singer and guitarist Keith Urban appeared at selected shows. The trio appeared in the music documentary Sounds Like a Revolution about then recent protest music in America. During the set, Maines stated that there was "zero hesitation" when the group
